## Full Stack Web Developer

### Objective

Innovative civil engineer transitioning into software testing, leveraging strong analytical skills and problem-solving expertise to enhance software quality. Committed to applying engineering precision in the tech field, I am focused on rapidly acquiring new skills and contributing unique insights to a dynamic team, driving both innovation and exceptional results.

### Technical Skills

**Front-End Programming Technologies:** HTML, CSS (Tailwind, Bootstrap), Java Script, React JS and Next JS.

**Back-End Programming Technologies:** Node JS and Express.

**CMS:** WordPress.

**APIs tools:** Postman.

**Database:** Mongo DB, PostgreSQL, Firebase, Sequelize and Knex.js

**Operating Systems:** Windows.

**Software Development Practices (SDLC):** Scrum and Agile.

**Other Tools:** MS Office (Word, Excel, PowerPoint) and Git (Version Control Systems).

### Soft Skills

Critical Thinking	Time Management
Problem-Solving Ability	Problem-Solving Ability
Project Management	Effective Communication
Creativity and Innovation	Attention to Detail
Customer-Centric Approach	Team Collaboration

### Experience

#### Trainee at Coding Academy by Orange

May 2024 – Dec 2024

##### Work Experiences:

- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT)

#### Integrated Technology Group (ITG)

Jan 2021 – May 2024

##### Work Experiences:

- Testing Applications (Great Tafsirs, Iqamah Prayer and Alathan Alshareef)  
**Duties:** finding bugs within the applications, writing test cases, and uploading them to TFS
- EduWave website  
**Duties:** Creating books, editing them, and overseeing their proofreading.
- Quranic Thought website  
**Duties:** Adding audiobooks, publishing books, and ensuring manuscripts accuracy on the website.

---

## Projects

### 1) [Election Website for Jordanians](#)

**Description:** Created a secure online voting platform with candidate registration, live results, and Zoom debates.

**Tools:** Knex Node.js, React, and PostgreSQL.

### 2) [Event Ticketing Web Application](#)

**Description:** Developed an event ticketing system with PayPal integration, featuring event browsing, booking, and an admin dashboard, using React and Axios.

**Tools:** React, Hooks, Firebase and Tailwind.

### 3) [Movie Web Application](#)

**Description:** Built a movie app with user registration, login, catalogs, detailed pages, reviews, and a responsive design.

**Tools:** HTML5, CSS and JavaScript

### 4) [Portal Website \(Designed in Figma\)](#)

**Description:** Designed a Figma portal with a sticky navbar, home page, job listings, and user pages for signup, profiles, job search, and contact, including visitor and registered user roles.

**Tools:** Figma.

## Education

**Coding Academy by Orange** - Zarqa, Jordan

7 Months Full-Stack Web Development Bootcamp

**Al-Balqa' Applied University, Polytechnic** - Amman, Jordan

BSc in Civil Engineering.

Graduated 3.62

---

## Courses

Quality Assurance Automation Course

**Nov 2022 – Jan 2023**

Manual Quality Assurance Course

**Jan 2023 – May 2023**
