Full Stack Web Developer

CAREER OBJECTIVE

I am a versatile professional with a unique blend of skills in Fullstack web development and customer service. As a web developer, I have experience building and maintaining responsive web applications using HTML, CSS, JavaScript, C#, TypeScript, Angular, and ASP.NET Core Web API. My technical expertise includes creating user-friendly interfaces, implementing APIs for data exchange, and managing databases using SQL Server. In addition to my development experience, I have a strong background in customer service and product management, where I excelled at resolving customer inquiries, providing technical support, and ensuring customer satisfaction. This dual expertise allows me to approach web development with a customer-centric mindset, ensuring that the solutions I build not only function smoothly but also enhance user experience and meet business needs effectively

Technical Skills

Programming Languages:

-Front-end: HTML/CSS , Angular, Bootstrap

-Back-end C#, JavaScript, MVC, ASP.NET Core web API **Database:**
SQL, SQL Server
