Full Stack Web Developer

## CAREER OBJECTIVE

A highly motivated and detail-oriented Computer Science graduate from Yarmouk University, currently honing full-stack web development skills through intensive training at Orange, completing 8 projects and accumulating over 900 hours of technical training and 100 hours of soft skills development.

Proficient in ASP.NET Core MVC, ASP.NET Core API, C#, SQL, and front-end technologies such as HTML5, CSS, Bootstrap, JavaScript, TypeScript, and Angular. Experienced in building scalable, database-driven applications with a strong focus on clean code, performance optimization, and user-centric design. Adept at problem-solving, debugging, and collaborating in Agile environments.

Seeking a dynamic web development role to leverage technical expertise, creativity, and analytical skills in delivering innovative digital solutions while continuously growing in a fast-paced environment.

## Technical Skills

**Front-End Languages:** HTML, CSS, JavaScript, Bootstrap, Angular, Typescript.

**Back-End Languages:** C#(OOP), ASP.NET Core MVC, ASP.NET Core API.

**Database Management:** SQL, SQL Server.

**Version Control:** Git, Github

**Software Development Practices:** Agile, Scrum.

**Tools & Technologies:** Visual Studio, Figma, Trello, MS Office (Word, Excel, PowerPoint).

## Soft Skills

Performance Review Data Analytics Skills Requirement Analysis Learning agility	Critical Thinking Problem-Solving Ability Creativity and Innovation Team Collaboration	Time Management Effective Communication Attention to Detail Fast learner

## Experience

Coding Academy by Orange  
Full Stack Web Development Trainee  
Work Experiences:

Dec 2024 - Present

- Developed dynamic full-stack web applications using ASP.NET Core MVC, C#, SQL, JavaScript, TypeScript, and Angular.
- Designed and implemented responsive front-end interfaces with Bootstrap, HTML5, and CSS.
- Gained hands-on experience in database management, writing complex queries and optimizing performance in SQL Server.
- Worked on real-world projects, applying Agile methodologies and collaborating in Scrum teams.
- Utilized Git and GitHub for version control, ensuring seamless collaboration and code management.
- Engaged in problem-solving and debugging, improving application efficiency and security.

## **Coderz Academy**

**Aug 2024 – Nov 2024**

### **Full Stack Web Development Trainee**

#### **Work Experiences:**

- Developed dynamic full-stack web applications using ASP.NET Core MVC, C#, SQL, JavaScript.
- Designed and implemented responsive front-end interfaces with Bootstrap, HTML5, and CSS.
- Gained hands-on experience in database management, writing complex queries and optimizing performance in SQL Server.

## **Projects**

### **1) HR Management System ([GitHub Link](#))**

**Description:** The HR Management System is a comprehensive web application developed using ASP.NET Core MVC, designed to optimize employee management processes within an organization. The system provides a structured approach to attendance tracking, task assignment, and leave request management, ensuring seamless communication between employees, managers and HR.

### **2) Ri'ayah ([GitHub Link](#))**

**Description:** Ri'ayah is a free, offline Android medical application developed using Android Studio, with Java for back-end logic and XML for front-end UI design. It provides users with reliable medical assistance through features like predictive diagnosis, skin disease detection powered by TensorFlow Lite, and lab test translations. The app offers an intuitive interface, allowing users to obtain preliminary diagnoses, detect skin conditions using their device's camera, and understand common lab tests. Designed for accessibility, ensuring medical support without the need for an internet connection.

### **3) Library Management System ([GitHub Link](#))**

**Description:** it streamlines operations for both university students and library administrators, The system ensures an efficient and user-friendly experience for both students and administrators.

### **4) Photography Store ([GitHub Link](#))**

**Description:** Photography Store is a group-based Angular project featuring a user-friendly e-commerce platform where users can browse product categories, view product details, add items to their cart, leave comments, and complete checkout with credit card or Orange Money. Users can manage their profiles, view past orders, apply discount vouchers, and search with filters or voice. Admins have a dashboard to manage products, categories, users, and vouchers. The site includes multi-language support and allows sharing products on Facebook.

---

## Education

### **Coding Academy by Orange, Jordan.**

**Dec 2024 – Present**

- 6-Month Full-Stack Web Development Bootcamp, encompassing 900 hours of technical training and 100 hours of soft skills development.
- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Samaya university for Technology (PSUT).

### **Yarmouk University, Jordan.**

**Aug 2020 – Jun 2024**

Bachelor's degree in Computer Science.

**Grade :** Very Good

### Conferences and Training Attended:

- **Completed Training in Data Structures & Algorithms** – Strengthened foundational programming and logical reasoning skills.
  - **Member of Computer Science Club** – Collaborated on coding projects and attended industry-related seminars.
  - Achieved placement on the Honor List four times during university studies.
-
