 [SuhaBadarneh](#)

Passionate full stack developer dedicated to improving company outcomes. Experienced in front-end and back-end development, creating responsive web applications. Collaborative and detail-oriented, adept at meeting project deadlines. Committed to achieving exceptional results and continuously enhancing skills. Eager to contribute to company growth and success.

## Professional Experience

### Full-Stack development trainee at Orange Coding Academy

25/2/2023 - 25/9/2023

Amman, Jordan

- I successfully demonstrated technical prowess and innovation through the completion of diverse web applications and mobile apps.
- Proficient in programming languages (HTML, CSS, JavaScript), frameworks (React, React Native), backend technologies (Node.js, Express.js), and databases (MongoDB), with expertise in full-stack development, API integration, and database management.
- Strong teamwork and collaboration skills showcased through active participation in group projects at Orange Coding Academy, including effective communication, code reviews, and seamless collaboration with team members.
- Recognized for skills and problem-solving abilities through participation in hackathons, coding competitions, and similar events organized by Orange Coding Academy, creating innovative solutions and gaining recognition.

### Web development trainee at Hisham Hijjawi tech Incubator

20/2/2022 - 20/6/2022

Irbid, Jordan

- Completed extensive training in web development, acquiring a strong foundation in HTML, CSS, and JavaScript. Proficient in building modern and visually appealing websites with a focus on responsive design.
- Developed proficiency in utilizing popular frameworks and technologies such as Bootstrap and WordPress. Skilled in leveraging these tools to streamline development processes, enhance user interfaces, and create dynamic web experiences.
- Acquired practical experience in server-side scripting with PHP and database management with SQLite and MySQL. Capable of building robust web applications with seamless data integration and efficient query execution.

### Private Tutor

2015 - 2021

Self-Employed/Private Tutor, Irbid & Amman , Jordan

- Conducted private tutoring sessions for students at various school levels, including elementary, middle, and high school.
- Employed effective teaching strategies to engage students and facilitate their understanding of complex concepts.
- Adapted teaching techniques to accommodate diverse learning styles and ensure student success.
