Full Stack Web Developer

CAREER OBJECTIVE

A dedicated Telecommunication and Computer Engineering graduate from Jadara University with a strong passion for web development. Currently enhancing full-stack development skills through intensive training at Orange. Proficient in ASP.NET Core MVC, C#, SQL, and front-end technologies like HTML5, CSS, Bootstrap, JavaScript, TypeScript, and Angular. Experienced in building efficient, database-driven applications with a focus on clean code, performance, and user-friendly design. Skilled in problem-solving, debugging, and working in Agile teams. Seeking an opportunity to apply technical expertise and creativity in developing innovative digital solutions.

Technical Skills

Front-End: HTML/CSS, JavaScript, Bootstrap, Typescript, Angular.
Back-End: C#(OOP), ASP.NET MVC, ASP.NET CORE API.
Database: SQL, SQL Server.
Version Control: Git, GitHub.
Software Development Practices (SDLC): Scrum, Agile.
Other Tools: Visual Studio, Visual Studio Code, Figma, Trello.
Other program language: C++.

Soft Skills

Strong understanding of SDLC Agile methodologies Performance Review Data Analytics Skills Requirement Analysis	Critical Thinking Problem-Solving Ability Project Management Creativity and Innovation Learning agility Team Collaboration	Time Management Effective Communication Attention to Detail Self-Learning Communication Work Under Pressure

Experience

Coding Academy by Orange
Full Stack Web Development Trainee
Work Experiences:

Dec 2024 - Present

- Developing web applications using **ASP.NET Core MVC, C#, SQL, and Angular**.
- Building responsive and user-friendly interfaces with **HTML5, CSS, Bootstrap, and JavaScript**.
- Working on **database-driven applications**, ensuring efficiency and optimization.
- Enhancing problem-solving skills through debugging and troubleshooting code.
- Collaborating in an **Agile development environment** and following best coding practices.
- Continuously learning and applying new technologies through **self-learning** and hands-on projects.

Projects

1) HR Management System ([GitHub Link](#))

The HR Management System is a comprehensive web application built with ASP.NET Core MVC, aimed at streamlining employee management processes within an organization. The platform features modules for attendance tracking, task assignments, and leave request management, fostering effective communication between employees, managers, and HR. As Scrum Master, I facilitated Agile ceremonies, removed blockers, encouraged team collaboration, and ensured timely delivery of project milestones while maintaining a focus on quality and team efficiency.

2) Library Management System ([GitHub Link](#))

A full-stack web application for a language institute, enabling students to search and borrow books, reserve meeting rooms, and submit feedback, while providing administrators with book and reservation management tools and data export functionality (PDF/Excel) • Technologies and Tools: ASP.NET Web Forms, C#, SQL Server, JavaScript, Bootstrap, Entity Framework, Figma, Trello, Git/GitHub.

3) Quiz Website ([GitHub Link](#))

Developed a dynamic Quiz Website in a collaborative team environment, focused on assessing candidates' knowledge through various quizzes, including IQ, English, and Technical Tests. As the Product Owner, I defined project goals and features, prioritized the product backlog, and ensured the team delivered a user-focused, responsive platform. The site was built using HTML, CSS, Bootstrap, and JavaScript, providing a smooth and engaging user experience across devices.

Education

Coding Academy by Orange, Jordan.

Dec 2024 – Present

- 6-Month Full-Stack Web Development Bootcamp, encompassing 900 hours of technical training and 100 hours of soft skills development.
- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Samaya university for Technology (PSUT).

Jadara University, Jordan.

Aug 2020 – Jun 2024

Bachelor's in Telecommunication and Computer Engineering.

Rate: Very Good
