Experience

Full-Stack Web Development Trainee
Orange Coding Academy – Irbid, Jordan

May 2024 – Present

- Participated in an intensive full-stack development-training program, covering both front-end and back-end technologies.
- Developed and maintained dynamic web applications using HTML, CSS, JavaScript, C#, TypeScript, and Angular.
- Designed and implemented responsive user interfaces using Bootstrap and Angular for optimal cross-device performance.
- Built and integrated CRUD using ASP.Net MVC and RESTful APIs using ASP.NET Core Web API to enhance functionality and streamline data exchange.

- Managed databases using SQL and SQL Server, performing complex queries and optimizing data retrieval processes.
- Collaborated in real-world projects, taking on various roles such as Product Owner, Scrum Master, and Developer, applying agile methodologies to ensure project success.
- Developed strong soft skills, including effective communication, teamwork, and leadership through collaborative projects, client presentations, and role-based responsibilities.
- Strengthened problem-solving and critical thinking skills by tackling complex technical challenges and implementing efficient solutions.
- Utilized tools like Trello for time management and task tracking, ensuring efficient project workflows.

Freelance Technical Writer

ProgressSoft Corporation – Amman, Jordan

March 2024 - Present

- **Technical Documentation:** Creating and maintaining clear, concise, and accurate technical documentation for software products, including user manuals, installation guides, and system specifications.
- **Content Creation:** Writing and editing content for various technical documents and marketing materials, ensuring that the information is relevant and accessible to the target audience.
- **Review and Revision:** Reviewing and revising existing documentation to ensure accuracy and relevance, incorporating feedback from stakeholders.

Freelance Legal Translator

Self-Employed – Irbid, Jordan

September 2018 - Present

- **Document Translation:** Translating legal documents such as contracts, court documents, legal briefs, agreements, and other materials between languages. Accuracy is crucial to ensure that the translated text maintains the original meaning and legal implications.
- **Terminology and Accuracy:** Using appropriate legal terminology and understanding the nuances of legal language in both the source and target languages to provide precise translations.
- **Client Communication:** Interacting with clients to understand their needs, clarify instructions, and provide updates on the progress of translations.
- **Proofreading and Editing:** Reviewing and editing translations to ensure they are error-free, coherent, and meet legal standards.
- **Confidentiality:** Handling sensitive and confidential information with the utmost discretion and maintaining client confidentiality.

Projects

- **E-Commerce Website ([GitHub Link](#))**

Description: Developed an online candy store, Sugar Land, offering a variety of sweets, chocolates, and candies. The platform allows users to browse product categories, view detailed product information, add items to a cart, adjust quantities, and proceed with secure checkout. Users can also leave comments and reviews on products. Administrators can manage products and categories, view sales, and oversee user activity through a comprehensive admin panel. Built using HTML, CSS, JavaScript, Bootstrap 5, C#, and ASP.NET Core API.

- **Parliamentary Jordanian Election System ([GitHub Link](#))**
Description: Developed an online election management system for Jordan's parliamentary elections. Features include online voting, application submission, ad management, and election result display, built using ASP.NET MVC5 and C#.
- **HR Management System ([GitHub Link](#))**
Description: Developed a Human Resource Management system using HTML, CSS, Bootstrap, and JavaScript. The system streamlines various HR processes and tasks, offering a user-friendly interface for efficient management.
- **Feedback System ([GitHub Link](#))**
Description: Built a feedback management system with features like user authentication, course management, dynamic feedback submission, and data visualization. Implemented using HTML, CSS, Bootstrap, JavaScript, and C# ASP.NET Web Forms.
