Full Stack Web Developer

CAREER OBJECTIVE

Full Stack Web Developer, I bring a robust blend of technical expertise and problem-solving skills honed through over 900 hours of intensive technical training and 100 hours of soft skills development at Orange Coding Academy. Proficient in a comprehensive range of technologies from HTML, CSS, Bootstrap, and JavaScript on the front-end to C#, MVC, SQL, and TypeScript on the back-end. I excel at delivering seamless, responsive, and secure web applications. With hands-on experience leading seven projects in roles such as Scrum Master and Product Owner, I am eager to leverage my full stack skills to drive innovation, enhance operational efficiency, and deliver impactful solutions in the technology industry.

Technical Skills

Front-End: HTML/CSS, JavaScript, Bootstrap, TypeScript, Angular.
Back-End: C#, ASP.NET Web Form, ASP.NET MVC Core, ASP.NET Core Web API.
Database: SQL, SQL Server
Operating Systems: Windows.
Software Development Practices (SDLC): Scrum, Agile
Other Tools: Visual Studio, Visual Studio Code, Figma, Trello, GitHub, Git (Version Control Systems), Docker

Soft Skills

Software Development	Critical Thinking	Time Management
Process Evaluation	Project Management	Problem-Solving Ability
Performance Review	Creativity and Innovation	Effective Communication
Data Analytics Skills	Self-Motivation	Attention to Detail
Requirement Analysis	Flexibility	Team Collaboration

Experience

Hikayatajloun - Orange Coding Academy May 2025 – June 2025
Full Stack Web Development Intern

Work Experiences:

- Participated in a one-month intensive internship focused on real-world software development practices.
- Contributed to the development of community-centered web solutions using technologies such as HTML, CSS, JavaScript, and ASP.NET Core.
- Collaborated with cross-functional teams to analyze user requirements and implement user-friendly features.
- Gained practical experience with Agile methodologies, version control (Git), and project management tools like Trello.
- Engaged in pair programming and code reviews, enhancing teamwork and code quality awareness.

Orange Coding Academy, Irbid/Jordan
Full Stack Web Development Trainee

Dec 2024 - May 2025

Work Experiences:

- **Engineered Responsive Web Applications:** Developed and maintained responsive interfaces using HTML, CSS, Bootstrap, and JavaScript, significantly enhancing user experience.
- **Optimized Back-End Services:** Assisted in designing and refining back-end systems with MVC, ASP.NET Core, and SQL, ensuring robust, scalable solutions.
- **Collaborative Development:** Worked closely with cross-functional teams to produce high-quality code, strengthening both teamwork and project management.
- **Database Architecture:** Contributed to the design and implementation of efficient database structures, improving data retrieval speed and integrity.
- **Enhanced Security Measures:** Implemented secure user authentication and authorization protocols, safeguarding web application data.

UNDP, Jordan
Energy Efficiency Consultant

Sep 2023 - Feb 2024

Work Experiences:

- **Advised on Energy Efficiency Technologies:** Recommended and integrated advanced energy conservation solutions within multiple electrical engineering projects.
- **Field Assessments:** Conducted on-site evaluations to assess energy efficiency measures and ensure compliance with national codes.
- **Collaboration:** Worked closely with project teams to incorporate sustainable energy practices into overall project designs.
- **Compliance & Optimization:** Provided strategic insights that enhanced energy conservation efforts and optimized overall system performance.

Ministry of local Administration, Jordan
Electrical Engineer

Apr 2024 - Mar 2025

Work Experiences:

- **Regulatory Compliance:** Supervised councils and local organizations to ensure their operations adhere to current laws and regulations.
- **Team Coordination:** Led teams and coordinated with various departments to enforce compliance and improve administrative efficiency.
- **Operational Oversight:** Conducted regular reviews and assessments to monitor performance and ensure adherence to legal standards.

Projects

1) Halal Souq – Livestock E-commerce Platform ([GitHub](#))

Description: Developed a full-stack livestock marketplace using Angular for the frontend and ASP.NET Core Web API for the backend. The system includes role-based dashboards (Buyer, Seller, Admin) with secure JWT authentication. Key features include auctions, product/order management, messaging, cart, and interactive maps. Applied clean architecture with DTOs, route guards, and dependency injection. This project enhanced my skills in API integration, frontend-backend communication, and scalable web application development.

2) HR Management System ([GitHub](#))

Description: Developed a comprehensive HR management system using HTML, CSS, Bootstrap, JavaScript, C#, SQL, and ASP.NET Core MVC. Designed dedicated dashboards for employees, managers, and HR featuring task management, attendance tracking, leave requests, and PDF report generation. Collaborated within a team of six to implement advanced functionalities including password encryption, voice search, and email notifications while adhering to Agile development practices.

3) Library Management System ([GitHub](#))

Description: Developed a full-stack Library Management System during Orange Coding Academy's Full Stack Developer Bootcamp. The platform features book search, user authentication, reservations, borrowing/returning, study room booking, and an admin dashboard. Utilized ASP.NET WebForms, HTML, CSS, Bootstrap, and JavaScript, while leveraging Figma for design and Trello for project management. Collaborated with a team of six using Agile methodologies, significantly enhancing my full-stack development and project management skills.

Education

Orange Coding Academy, Irbid/Jordan

Dec 2024 - May 2025

Full Stack Web Development Bootcamp

Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess

Sumaya University for Technology (PSUT).

Yarmouk University, Jordan

Sep 2015 –Sep 2020

Bachelor's degree in Electrical Power and Machines Engineering

Courses and Certificates

- Capacity-building Training for Greenhouse Gases (GHGs) Inventory ([link](#))
 - Urban Planning, Land Use Governance, and Green Building Rating System Training ([link](#))
-
