Experience

1) Orange Coding Academy, Irbid - Jordan

Dec 2025 - Present

Full Stack Web Development Trainee

Work Experiences:

- Completed intensive training in **Full Stack Web Development** at Orange Coding Academy, focusing on **ASP.NET Core MVC, JavaScript, HTML, CSS, TypeScript, C#, Angular, Core API, and SQL**.
- Worked on 10 diverse projects, including 5 individual and 5 group projects, applying learned skills to build practical solutions and enhance real-world development experience.
- Strengthened problem-solving and debugging skills through hands-on experience in real-world projects, ensuring code efficiency and reliability.
- Gained leadership experience as a Scrum Master, managing team collaboration, sprint planning, and ensuring timely project delivery.

2) Extensya, Irbid - Jordan

Oct 2023 – Aug 2024

Customer Service Representatives

Work Experiences:

- Provided exceptional customer support to both English and Arabic-speaking clients, ensuring clear and effective communication to address diverse customer needs and inquiries.

- Resolved customer concerns efficiently by actively listening, analyzing issues, and offering prompt and effective solutions, enhancing customer satisfaction and loyalty.
- Managed high volumes of customer interactions across various channels while maintaining professionalism, meeting response time targets, and ensuring consistent service quality.

3) Vardot, Amman - Jordan

Oct 2022 – Dec 2022

Front-End Web Development Trainee

Work Experiences:

- Developed and maintained responsive web pages using HTML, CSS, Bootstrap, and JavaScript, ensuring cross-browser compatibility and optimized user experiences.
- Worked in an agile team environment, contributing to UI design and coding tasks, while enhancing skills in problem-solving, debugging, and implementing user-centered design principles.

Projects

1) HR Management System [[GitHub Link](#)]

Description: Developed an HR management system, utilizing HTML, CSS, Bootstrap, JavaScript, C#, SQL, and ASP.NET Core MVC. The system includes employee, manager, and HR dashboards with features such as attendance tracking, task management, leave/vacation requests, yearly evaluations, department management, PDF generation, and password hashing, with a focus on user-friendly interfaces and efficient backend functionality.

2) Library Management System [[GitHub Link](#)]

Description: Created a Library Management System using HTML, CSS, JS and ASP.NET C# Web Forms, designed for managing book and hall reservations. The system includes user and admin login functionalities, book and hall booking features, as well as administrative controls for managing resources and viewing reservation history. Data is stored and retrieved from TXT files, ensuring a lightweight solution without the use of Local/Session Storage.

3) E-commerce Platform [[GitHub Link](#)]

Description: Developed a feature-rich e-commerce web application for selling cosmetics, focusing on user experience and modern design using Angular, TypeScript, HTML, CSS, Bootstrap. The platform includes user authentication, product categorization, shopping cart, voucher application, order processing, and a personalized user profile system with saved preferences, addresses, payment methods, and order history. Integrated product reviews and ratings to enhance customer trust. Contributed to building a scalable, responsive, and user-friendly interface tailored for beauty enthusiasts.

4) Recruitment Quiz Platform [[GitHub Link](#)]

Description: A recruitment quiz website designed to assess candidates' knowledge and skills for various job roles. The site includes quizzes such as IQ, English, and Technical Tests, each with 10 multiple-choice questions. Key features include user registration, login, profile management, quiz selection, real-time test results, and answer reviews. The website utilizes HTML, CSS, Bootstrap, and JavaScript, with data stored in JSON files. It is responsive, user-friendly, and offers optional features like password reset, downloadable results, and dark/light theme support.

Education

Orange Coding Academy, Irbid

Dec 2025 - Present

Intensive bootcamp focused on hands-on learning and practical application, rapidly mastering new technologies and developing advanced problem-solving skills.

Jordan University of Science and Technology

June 2016 - Dec 2021

Bachelor's in network engineering and technology.
