PROFILE

I am a detail-oriented and highly motivated Back-End Developer with expertise in Node.js, PostgreSQL, and MongoDB. Dedicated to delivering high-quality results, I possess a passion for learning and implementing new technologies, ensuring the development of efficient, secure, and innovative solutions. With a proven ability to collaborate effectively, I have experience working within a team environment, bringing a collaborative mindset to achieve project goals. Additionally, I thrive in dynamic and challenging situations, showcasing my capability to work under pressure while maintaining a focus on delivering exceptional results.

EXPERIENCE

Trainee at Orange Coding Academy

09/2023 – 01/2024

We underwent an immersive Back-end Web Development course in partnership with Simplon.co and Princess Sumaya University for Technology (PSUT), where we:

- Gained proficiency in HTML, CSS, JavaScript, as well as Node.js, Express.js, PostgreSQL, and MongoDB.
- Successfully accomplished 7 varied projects, broadening and enhancing my development skills and experience.
- Designed, tested, and ensured the responsiveness of REST APIs with a wide array of request types.

PROJECTS

ShopInfinite

11/2023

A secure e-commerce platform using Node.js, Express.js and PostgreSQL. The project incorporates features such as Stripe payment integration, user authentication, and login options including Google authentication, along with secure signup and login functionalities storing data in a database.

WiseReads

10/2023

Explore our project, an online library offering a gateway to an expansive literary realm. This platform allows users to freely download and immerse themselves in an array of books while also enabling the convenience of adding favorites. Experience an exceptional reading journey with seamless functionality and responsive design across multiple devices.

Omnifood

01/2023

This project is a monthly healthy diet food subscription landing page, where users can choose between receiving one or two meals per day, every single day of the month.
