Full Stack Web Developer

CAREER OBJECTIVE

A recent graduate in Software Engineering from The Hashemite University, with hands-on IT internship experience at Orange Coding Academy. I specialize in Full Stack Development and am proficient in Java, C++, C#, and JavaScript. My academic background and internship have provided me with a solid foundation in software development, data analysis, and knowledge management. I have demonstrated problem-solving abilities and a keen analytical mindset, with experience in standardizing policies and procedures. I am eager to leverage my academic knowledge and practical experience to excel in challenging entry-level IT roles, where I can contribute to innovative projects and further develop my technical and professional skills.

Technical Skills

Technologies: Java, C++, C#, JavaScript, HTML/CSS
Database: Oracle SQL, PostgreSQL, SQL Server, Sequelize, knex, Firebase
Frontend Frameworks and Libraries: React js, Tailwind css, Bootstrap, Redux, Nextjs
Backend Frameworks: Express, Node Js, PHP.
Software Development Practices (SDLC): Scrum, Agile
CMS: WordPress
Other Tools: MS Office, Git, Postman, Figma, UML diagrams, Trello

Soft Skills

Software Development	Critical Thinking	Time Management
Process Evaluation	Problem-Solving Ability	Problem-Solving Ability
Performance Review	Project Management	Effective Communication
Data Analytics Skills	Creativity and Innovation	Attention to Detail
Requirement Analysis	Customer-Centric Approach	Team Collaboration

Experience

Trainee at Coding Academy by Orange 05/2024 – 12/2024
Work Experiences:

Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT)

Projects

1) **Jordanian Elections 2024** [Repo](#) –Scrum Master

Developed an election website for Jordanians featuring secure online voting, candidate registration, and result viewing and other features.

Technologies used:React ,Tailwind ,Node js, Knex.

2) **Event Ticketing** [Repo](#)

Developed an Event Ticketing Web Application with integrated PayPal payment functionality.

Technologies used:React ,Tailwind ,firebase.

3) **Movie Web Application** [Repo](#)

featuring user registration and login, comprehensive movie catalogs with categories and detailed pages, and review functionalities.

Technologies used:HTML,CSS,Bootstrap,JS,firebase.

4) **Portal website using Figma** [Repo](#)

Designed a website in Figma featuring a sticky navbar, home page with site introduction and job listings, and pages for signup/login, profile, job search with filters, and contact.

Technologies used:HTML ,CSS,Bootstrap

5) **Skin Care website [Graduation project]**

It developed using PHP, designed to display a wide range of skincare products. The site focuses on enhancing user experience by providing filter options such as product type, skin type, brand, price range, and ingredients, allowing users to easily find the most relevant products for their needs. Additionally, the website addresses the ethical concerns of users by presenting alternative products for brands that are subject to boycotts, thus offering users more ethical shopping choices.

Education

The Hashemite University , Zarqa - 2024

Bachelor's in Software engineering

Courses

- **Webton club**
HTML,CSS,React

March-2023 / May-2023

- **beProgrammer**
Java

Febreuary-2022 / May-2022
