### Experiences

#### Agile (Scrum team)

##### Working in an agile team

- Got started with the agile methodology throughout the bootcamp i took in web development.

#### Project Presentation

##### Presenting projects to a jury

- Made several presentations for completed projects in front and back end development for a jury simulating companies work flow.

#### Working in teams and under pressure

- Due to an intensive roadmap and time limitations , dead lines had to be met critically . Worked with various groups and had a great experience in cross-learning and developed my pedagogy concept throughout
