## OBJECTIVE

---

### Full Stack Developer

Seeking an internship or entry-level opportunity to leverage my technical skills while growing in the field. I am a driven and adaptable professional with a background in architecture and hands-on experience gained through completing multiple solo and group projects during Orange Coding Academy's comprehensive bootcamp. Proficient in **HTML5, CSS3, JavaScript, PHP, Laravel, and React**, Eager to expand my knowledge and bring value to any team I join.

## SOFT SKILLS

---

Time Management | Adaptability | Active Communication | Critical Thinking  
Team Collaboration | Eager to Learn | Emotional Intelligence

## TECHNICAL SKILLS

---

**Frontend** : HTML5 - CSS3 - JavaScript -

Bootstrap - React.

**Backend** : PHP- Laravel.

**Operating Systems** : Windows.

**Database** : SQL, MySQL.

**Software Development Practices**

(SDLC): Agile, Scrum.

**Version Control Tools** : Git - GitHub-  
Visual Studio Code - Figma - Trello.

## EXPERIENCE

---

Full Stack Web Developer Trainee | Orange Coding Academy      Sep 2024 - Dec 2024

- Learned comprehensive full-stack development, including **HTML5, CSS3, JavaScript**, and **Bootstrap** for front-end design, and **PHP, Laravel**, and **MySQL** for back-end functionality.
- Gained practical experience with **MVC architecture**, database design, and **OOP principles**, building scalable and secure web applications.
- Enhanced collaboration and teamwork skills by participating in Agile workflows, such as sprints and code reviews, while using **Git and GitHub** for version control.
- Improved time management and adaptability by meeting strict deadlines for project milestones in a fast-paced learning environment.
- Strengthened communication skills by presenting project solutions and engaging in constructive peer feedback sessions.

Architecture Engineer | Suliman Abuasad Office

Sep 2020 - March 2024

I have gained new knowledge with civil engineering and I have architecturally and structurally design multiple projects.

Architecture Engineer | Firas AISabbagh Office

April 2019 - Feb 2020

I have been responsible for multiple projects within a group and have developed the way of designing in the firm.

## PROJECTS

---

### Movie Maze

[Movie Maze Repo](#)

Developed **Movie Maze**, an interactive website for discovering movies by category, using HTML5, CSS3, JavaScript, and an API to fetch movie details. Gained hands-on experience in interactive web design, API integration, and creating intuitive user interfaces, while enhancing front-end skills and teamwork.

### Waggy

[Waggy Repo](#)

Developed **Waggy**, an e-commerce website for pet products, featuring an admin dashboard built with PHP in an MVC structure and database integration. Gained experience in back-end development, database management, and collaborative work using GitHub, strengthening technical and teamwork skills.

### Go-Movies

[Go-Movies Repo](#)

Built **Go Movies**, a full-stack web application with React for the front-end and Laravel for the back-end API. Developed features including secure user authentication, movie search functionality, and seamless data handling through API endpoints. Gained experience in full-stack development and version control using GitHub.

## EDUCATION

---

Orange Coding Academy | Full-Stack Development Bootcamp

Sep 2024 - Dec 2024

**Intensive course** in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Al-Albayt University - Jordan

2013 - 2018

**Bachelor in Architecture.**

## LANGUAGES

---

Arabic - Native

English - Advance
