During working as teacher, I gained many life skills such as:

- problem-solving
- adaptability
- Leadership

Technical Skills:

HTML
CSS

Node.js
PHP

Laravel
WordPress

SQL
GitHub

SOFT SKILLS:

- Active listening
- Computer skills
- Management skills
- Customer service skills
- Time management

PROJECTS:

- Online Quiz: The Online Quiz Website is a web-based application designed to provide an interactive and engaging platform for users to take quizzes on various topics. The project primarily focuses on HTML, CSS, Bootstrap, and JavaScript to create an appealing and responsive user interface.
- NEXT-GEN: The E-Commerce Website - Electronic Shop is a full-fledged online platform designed to showcase and sell electronic products to customers. The project combines HTML, CSS, Bootstrap, JavaScript, and PHP to create a user-friendly and interactive shopping experience.
- Vehicle: The Transportation Booking Website is an online platform designed to facilitate the booking of various transportation types, including cars, boats, caravans, and motorcycles. The project leverages Laravel, CSS, HTML, JavaScript, and PHP to create a robust and user-friendly booking system, along with an admin dashboard for managing the platform.
- Ticket system: ticket booking system using Laravel, JavaScript, CSS, and HTML. The system includes features for both the admin and agent, allowing them to manage and book tickets

VOLUNTARY:

- As a volunteer, I volunteer at orphan centers, offering support, care, and mentorship to children who needed it most, creating a positive impact on their lives.
- educating Syrian students, providing them with access to quality education and empowering them to pursue their dreams.

CERTIFICATES:

- Full stack developer
 - CCNA cisco courses cyber technical system
-
