- 3D Animation and Computer Gaming
- Arduino Course
- HR Course

**Full Stack Developer (Trainee)**  
Coding Academy by **Orange**  
*Sep 2020 - Present*

*Amman, Jordan*

### Top 4 Projects

- **Te7lay Website (Groups)** *Feb 2021*  
(PHP, HTML5, SASS, javaScript, BootStrap.)  
Te7lay is the best platform to connect sweet stores such as icecream stores, cake stores and the arabian sweets stores , with the user to make the ordering process easier , faster and cheaper. we bring the stores to the user and give him all the available sweets
- **WebSoft Website (Groups)** *Dec 2020*  
(React, HTML5, SASS, javaScript, BootStrap.)  
A site that provides a web design service, my experience with Scrum Master was great, we encountered several problems, but we were able to solve them as a team and finish the project on time
- **E-commerce Website (individually).** *Nov 2020*  
(WordPress).  
E-Commerce provides a platform for business to operate freely and reach a wider audience. the limitations of space, time and locations. It was a wonderful and unique experience
- **Restaurant website (Groups).** *Oct 2020*  
(HTML5,CSS3,JavaScript,jQuery).  
One of the best experiences is working with a team, and working together to come up with an idea and implement it in a short time. It was a great experience with a wonderful team.

## PERSONAL PROJECTS

**Escape Room Game - Unity**  
*May 2019 - Jul 2019*

**ARMDC Game - Unity**  
*Feb. 2020 - Present*

- Educational/entertaining game for kids with mental disabilities to help them learn in active and interactive learning technology
