PROFILE

Experienced backend developer proficient in HTML, CSS, JavaScript, PHP, and MySQL, with specialized expertise in Laravel. Demonstrates strong problem-solving abilities and critical thinking, dedicated to crafting efficient and scalable web applications. A collaborative team player known for excellent communication skills. Committed to delivering high-quality solutions in a dynamic development environment.

PROFESSIONAL EXPERIENCE

Web Development Trainee

09/2023 – 12/2023

Coding Academy by Orange

- gaining practical expertise in PHP and Laravel for back-end development, along with proficiency in HTML, CSS, and JavaScript.
- Skilled in version control and collaborative coding through Git and GitHub, fostering effective teamwork and streamlined code management
- Acquired a robust understanding of SQL database management, emphasizing query optimization and database design.

Communication engineer

02/2022 – 06/2023

Site engineer in Smart Cell for Communication system and Contracting

Amman, Jordan

- Site engineer at SMART Cell with expertise in Huawei and Ericsson equipment, specializing in installation, integration, and troubleshooting
- Proven experience in projects like Zain L2100 and Orange 2022 RAN Exp, including 5G testing and DWDM.

PROJECTS

Portfolio

Crafting a dynamic project portfolio with HTML and CSS for a visually engaging and responsive showcase of skills and achievements. Elevating the online presence with a polished and well-designed web interface.

Quiz website

Developed a responsive quiz website using HTML, CSS, and JavaScript, featuring secure registration/login, sequential multiple-choice format, pass/fail result pages, review capability, and seamless YouTube API integration. Ensured robust security measures, informative confirmations, and an efficient assessment tool, enhancing the user experience for evaluating candidates' knowledge and skills.

Volunteer Management System

Developed a PHP and MySQL-based Volunteer Management System with an admin dashboard. Users can search, register, and interact with events, while admins manage events, categories, and user profiles. The system prioritizes security, efficiency, and user-friendliness.

Ecommerce Website

Designed and implemented a dynamic E-commerce website utilizing PHP and MySQL, collaborating with a front-end developer to integrate a sleek navigation bar, an about me section, and multiple pages showcasing skills and experiences. The project also includes dedicated sections for projects/services, contact information with GitHub and LinkedIn links
