

yazeed bani issa

Date of Birth : 20/10/1995

ABOUT ME

I am a computer engineering graduate, I studied data science and am interested in this field. I have previous knowledge of networking and cyber security. Independent and motivated to seek new opportunities to enhance my abilities and enrich my career.

EDUCATION

2021

AL-HUSSEIN BIN TALAL UNIVERSITY

Computer Engineering 71.8

2/23 - 4/23

ORANGE CODING ACADEMY

data science

WORK EXPERIENCE

04/07/2021 - 29/08/2021

Zain Jordan Telecom Company

University Training

- We learned how to build networks and how they work Optical fiber construction and how to deal with it In the computer department, I learned how to detect errors in computer systems and how to fix them, How to protect computer networks.

PROJECTS

House Price Forecasting

- Dataset contains house sale prices. It includes homes sold between May 2014 and May 2015 in King County.
- Columns include details about the house such as the number of bedrooms and bathrooms, squared meters, year built, condition, etc. [Project link here](#)

YazLoader

- A python script that downloads videos from YouTube. The advantage of this script is that it downloads videos and YouTube lists. It also recognizes the link as soon as it is pasted. You only have to put the link and then he alone will download the video or YouTube list. [Project link here](#)

Voice chatting robot

The idea of the project is to create an emotional robot that simulates human feelings, its mission is to help the elderly overcome loneliness that results from the lack of contact with humans.

CountDown Timer

- Countdown app. The total time is selected. The idea of the application is a capsule of time to study or work in this capsule and when the time is up we take a break.
