AMMAN-JORDAN

ABOUT ME

An ambitious, eager learner, optimistic, and always thirst for knowledge in various types of fields, especially in Data Science and AI. looking for a reputable organization so I can apply and modify my strong skills in Mathematics, Statistic, and Programming. I can work well either individually or in a team.

EDUCATION

DATA SCIENCE COURSE Coding Academy by Orange

- Understanding supervised and unsupervised algorithms
- Cleaning data using pandas and numpy
- Visualization using seaborn and matplotlib lib
- Applying some of machine learning algorithms such as linear regression and Kmeans
- Understanding of natural language processing and its applications

MASTER OF INDUSTRIAL ENGINEERING

University of Jordan
2017-2021
GPA:3.41

BACHELOR OF INDUSTRIAL ENGINEERING

University of Jordan
2012-2017
GPA:2.93

PROJECTS

DATA SCIENCE COURSE

Was member of a team who worked on two projects

- Jordan Food Price :cleaned and preprocessed the dataset, conducted statistical analysis and visualization, and obtained useful insights by using NumPy, Pandas, Matplotlib and Seaborn libraries in Python.
- Customer Churn Prediction : encoding categorical data into numeric values. Built a classification model with Random Forest Classifier algorithms with an accuracy of 83%. Designed User Interface by using Tkinter library in python.

TECHNICAL SKILLS

- Python libraries(Numpy,pandas,scikit-learn,matplotlib,seaborn)
- SQL
- Tableau
- Minitab
- SPSS

SOFT SKILLS

- Communication
- Public Speaking
- Team working
- Time Management
- Critical Thinking

LANGUAGES

- Arabic
- English
