Skills

- HTML
- CSS
- Java Script
- MERN (MongoDB, Express, React(Hooks & Redux), Node)
- PERN (PostgreSQL, Express, React(Hooks & Redux), Node) I
- WordPress

Projects

Resort ☑

It's our first time creating a full-stack website
it's a platform designed to help people to find the best places for their vacations
we have created this website using several languages and methods such as (git and GitHub, React, CSS, Node js, tailwind, Postgres)

Clothes-Charity ☑

Scarf Of Hope is a website dedicated to facilitating clothes donations to those who need them and making attachments between the donors and needy people
by providing them with a simple website to achieve what they need at this platform we used (React, CSS, Tailwind, Node js, Mongo DB)

Abughaush For Electrical Solutions ☑

its a platform designed for helping people and other companies to
find the electrical industrial services and products by making attach between factories, companies and the stores or factories that have these services and, products.
I have created the website using several technologies (React, Bootstrap, Node js , MongoDB)
