## Full Stack Web Developer

### CAREER OBJECTIVE

I am Ahmed Yacoub, a recent graduate with a Bachelor's degree in Computer Information Systems from Yarmouk University. I bring a strong skill set and practical experience in web development, having completed a 1000-hour training program at Orange Coding Academy. During this intensive training, I worked on ten projects and gained proficiency in Python, C++, C#, ASP.NET Core, Angular, and TypeScript. This experience not only advanced my technical skills but also provided valuable training in soft skills. My background in software development, data analysis, and information systems is complemented by strong problem-solving and analytical abilities, developed through academic and practical projects. Additionally, my interpersonal and communication skills, honed through teamwork and leadership roles, further strengthen my profile. I am eager to leverage my technical expertise and experience in a dynamic entry-level Full-Stack Web Developer position to contribute to innovative projects and drive organizational success.

### Technical Skills

**Front-end:** JavaScript, HTML/CSS, Typescript, Angular

**Back-end:** C# , Asp.net Core API, Asp.net MVC

**Database:** SQL, MySQL, SQL Server

**Operating Systems:** Windows, Linux(Ubuntu, Kali)

**Software Development Practices (SDLC):** Scrum, Agile

**Other Tools:** MS Office (Word, Excel, PowerPoint), GitHub, Trello

### Soft Skills

Fast learner, Self learner Adaptability Multi-tasking Requirement Analysis	Critical Thinking Problem-Solving Ability Leadership Creativity and Innovation	Time Management Effective Communication Attention to Detail Team Collaboration
---	---	---

### Experience

**Orange Coding Academy, Irbid**  
**Full Stack Development Trainee**

**May 2024 – Present**

#### Work Experiences:

- Successfully completed an extensive program in full-stack development, covering a wide range of front-end and back-end technologies. Supported the deployment of new technology solutions, gaining hands-on experience with enterprise IT environments.
- Designed and managed web applications utilizing technologies such as HTML/CSS, JavaScript, C#, TypeScript, and Angular. Collaborated in the design and implementation of database management solutions, enhancing data integrity and performance.
- Crafted responsive layouts and interactive user interfaces with Bootstrap and Angular.

- Developed and integrated APIs using ASP.NET Core Web API, improving data exchange and overall application functionality.

**ZeeDimension, Amman**

**August 2023 - December 2023**

**Data Analytics Trainee**

**Work Experiences:**

- Conducted In-Depth Data Analysis: Utilized advanced data analytics tools and techniques to extract actionable insights from complex datasets, supporting strategic decision-making processes.
- Developed Analytical Dashboards: Designed and implemented interactive dashboards using data visualization tools, enabling real-time monitoring and reporting of key performance indicators.
- Optimized Data Processes: Streamlined data collection and processing workflows, enhancing data accuracy and reducing processing times

---

## Projects

**1) Elections (صوت الحق) ([github Link](#))**

Description: The election website project is designed to facilitate both voters and candidates in the election process. The website is divided into a user side, which includes voters and candidates, and an admin side for election supervision. The following document outlines the project details, team members, links to resources, and key functionalities.

**2) Smart-Tech E-commerce ([github Link](#))**

Description is a sophisticated online retail platform developed with ASP.NET Core Web API, SQL Server, and front-end technologies including HTML, CSS, and JavaScript. It features secure user authentication and authorization, a detailed product catalog, a streamlined shopping cart and checkout process, and robust order management. The platform also includes advanced search and filtering, user reviews, and a responsive design for a seamless shopping experience across devices. This project showcases a complete solution for modern e-commerce, combining secure backend operations with an intuitive user interface.

**3) HR-Management-System ([github Link](#))**

Description: HR System, Streamlined HR processes including employee management, attendance tracking, and more.

**4) feedback system ([github Link](#))**

Description: is a comprehensive course management platform developed as part of our 4th project at Orange Coding Academy. This platform facilitates seamless course management, feedback collection, and progress tracking, aiming to enhance the educational experience for both students and administrators.

---

## Education

**Full Stack Web Development Bootcamp by Orange Coding Academy (May 2024 – Present)**

Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simpon.co and Princess Sumaya University for Technology (PSUT).

**Yarmouk University , Jordan (2019 - 2023)**

**Bachelor's degree in computer information systems**

---

### **Courses and Certificates**

- Completed the course HTML Development in Orange Coursat. MAR / 2024
- Completed the course CSS Development in Orange Coursat. MAR / 2024
- Completed the course JavaScript Development in Orange Coursat MAR / 2024.
