Full Stack Developer | System Engineer | Software Developer

CAREER OBJECTIVE

A Full Stack Developer, former trainee at Orange Coding Academy. Proficient in Laravel, PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, and WordPress, with a basic foundation in Python. During my training, I developed multiple projects using modern technologies, enhancing my problem-solving skills. I am adaptable, a team player, and seeking a Full Stack Developer role to further develop my skills and contribute innovative solutions.

CORE COMPETENCIES

- Full Stack Development (Laravel, PHP, MySQL, JavaScript)
- Requirement Analysis & Process Optimization
- Problem-Solving & Critical Thinking
- Project & Time Management
- Data Analysis & Performance Evaluation
- Creativity & Innovation in Software Development
- Effective Communication & Team Collaboration
- Attention to Detail & Customer-Centric Approach

TECHNICAL SKILLS

- **Languages:** Laravel, PHP, JavaScript, HTML, CSS
- **Databases:** MySQL, SQL Server
- **Operating Systems:** Windows, Linux/Unix
- **Development Methodologies:** Agile, Scrum, SDLC
- **Version Control:** Git, GitHub/GitLab
- **Other Tools:** MS Office Suite (Word, Excel, PowerPoint)

EDUCATION

- | | |
|--|-----------|
| • BSc of Computer Science
Amman Al-Ahliyya University | 2020-2024 |
|--|-----------|

WORK EXPERIENCE

Orange Coding Academy — Balqa, Jordan
Intern, Full Stack Development

Dec 2024 – May 2025

- Assisted in developing and maintaining web applications, gaining practical experience in both front-end and back-end development.
- Contributed to database management solutions, improving data integrity and performance.
- Supported software deployment and integration, enhancing understanding of scalable application development.
- Developed and enhanced web-based systems using Laravel, PHP, JavaScript, MySQL, and Bootstrap.
- Collaborated with a team to troubleshoot and resolve technical issues, improving problem-solving and debugging skills.
- Participated in code reviews and adhered to best practices for software development and version control (Git).
- Followed Agile development practices, attending team meetings and contributing to project planning.

ACADEMIC PROJECTS

1) **Quiz Website**

Developed an interactive quiz platform with user authentication and result tracking. Designed a dynamic question bank and scoring system to enhance user engagement. Developed the front-end using HTML, CSS, and JavaScript.

2) **E-Commerce Platform (Gleam-Accessories)**

Developed an online clothing store with a seamless shopping experience using HTML, CSS, Bootstrap, and JavaScript. Implemented PHP and MySQL for backend, enabling product browsing, search, filtering, and a smooth checkout. Admin panel featured CRUD functionalities for product and database management.

3) **Scope Realty - Room Rental Platform**

Scope Realty is a unique room rental platform offering themed experiences for tourists and locals. Users can search, filter, and book rooms directly, while multiple owners list their spaces. Built with Laravel, PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap, it features an admin panel with full CRUD functionalities and real-time user interaction tracking.

PERSONAL INFORMATION

- **Nationality:** Jordanian
- **Date of Birth:** 29 March 2002
- **Marital Status:** Single
- **Languages:** Arabic and English
