PROFESSIONAL EXPERIENCE

Junior Front-End Developer At Orange Academy Bootcamp |

During a 4-month intensive coding bootcamp at Orange Academy, I gained hands-on experience in web development and honed my skills in HTML, CSS, JavaScript and WordPress. This immersive program allowed me to work on a variety of real-world projects, applying the knowledge and techniques I acquired. Some of the notable projects I completed include:

- **Portfolio Website:** Designed and developed a personal portfolio website using HTML and CSS to showcase my skills and projects. The site featured a clean and modern design, highlighting my web development journey.
- **Online Quiz Website:** Created an interactive online quiz website using HTML, CSS, and JavaScript. This project included dynamic quiz questions, a timer, and a score tracking system to engage and challenge users.
- **E-commerce Website (WordPress):** Developed an e-commerce website using WordPress, integrating essential e-commerce features like product listings, shopping cart, and secure payment gateways. Customized the design and functionality to provide a seamless shopping experience.
- **Grocery E-commerce Website:** Designed and implemented a full-stack grocery e-commerce website from scratch, utilizing HTML, CSS, JavaScript, PHP, and MySQL. Developed features such as user registration, product listings, shopping cart, and order management.
