

# HEBATALLAH ALAJOURI

## FULL STACK DEVELOPER

Jordan | +962 779560965 | [hebaajoury1212@gmail.com](mailto:hebaajoury1212@gmail.com) | [LinkedIn](#) | [GitHub](#)

A Full Stack Developer with a strong background in building dynamic and responsive web applications. Proficient in front-end technologies like React, HTML, CSS, Bootstrap, and Font Awesome, and skilled in back-end development using Laravel. Focusing on delivering high-quality, scalable solutions. I have about 10-20 full-stack projects and three graduation projects on my GitHub account. I have excellent problem-solving skills and a passion for continuous learning in the ever-evolving tech landscape.

## TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React and Angular.
- **Backend:** PHP, MVC, Laravel
- **Tools :** Visual Studio, VS Code, GitHub, Figma, Trello
- **Database:** SQL Server
- **Software Development Practices (SDLC):** Agile, Scrum

## SOFT SKILLS

- **Problem-Solving**
- **Communication**
- **Critical Thinking**
- **Teamwork**
- **Attention to Details**
- **Creativity**

## EXPERIENCE

### Full-Stack Web Development Trainee | Orange Coding Academy, Amman/Jordan

01/2025 – Present

- **Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript and React, enhancing the user experience with clean UI/UX principles.
- **Back-end:** Built and maintained web applications using PHP, MVC, and Laravel.
- **Database:** Managed and optimized SQL Server databases. Created and executed queries for efficient data retrieval, and ensured database performance.
- **Project Work:** Delivered 6 full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.
- **Collaboration:** Worked closely with teams to implement project requirements and ensure the seamless integration of front-end and back-end systems.

### Full-Stack Web Development Trainee | Dot Jo company, Amman/Jordan

01/2024 – 03/2024

- A certificate in the completion of 60 hours of Full Stack Web Development Training by Dot. Jordan
- The training included for Front-end React and for Back-end Node.js.

---

## PROJECTS

An educational website for Tawjihi students in Jordan called EasyTawjihi | Orange Coding Academy| ( [Github](#))

- Created an easy-to-use and efficient online store for selling flowers with smooth navigation and a seamless shopping experience
- Utilized Html Css and Js and the MVC (Model-View-Controller) architecture for clean and maintainable code structure.
- Implemented MongoDB Server for efficient database management.
- Ensured a smooth user experience through optimized front-end design and back end logic, providing a reliable platform for customers.

The second one is an e-commerce website called eleca | Orange Coding Academy| ( [Github](#))

- I developed a travel website for selling electronics.
- I used HTML, CSS, and JavaScript to develop the front-end and create an interactive and visually appealing user experience.

Portfolio Development | Orange Coding Academy| ( [Github](#))

I created and developed a personal website to showcase my skills and the projects I have completed as a Full Stack Developer. The portfolio highlights my expertise in web development technologies such as HTML, CSS, JavaScript, PHP, SQL, Laravel and React. The project includes detailed descriptions of each project, demonstrating my ability to build responsive, user-friendly, and functional web applications.

---

## LANGUAGES

-English (Fluently).

-Arabic

-French (I've got two certificates on DELF A1 and DELF A2).

---
