## Full-Stack Developer

### CAREER OBJECTIVE

Aiming to utilize my comprehensive skills in full stack development to build efficient, scalable, and user-centric web applications. With a strong foundation in both front-end and back-end technologies, my goal is to contribute to complex projects that require innovative problem-solving, performance optimization, and seamless user experiences. I am looking for a role where I can continuously grow my technical expertise, collaborate with cross-functional teams, and contribute to the overall success of an organization by delivering high-quality digital solutions that align with business goals.

### Core Competencies

Problem Solving  
Time management  
Critical Thinking  
Flexibility

Communication Skills  
Teamwork  
Organization  
Creativity

Attention to Detail  
Responsibility  
Work under pressure

### Technical Knowledge

**Front-End Development:** Proficient in HTML, CSS, and JavaScript, with experience in building responsive and interactive user interfaces. Utilized React for dynamic, component-based web applications.

**Back-End Development:** Developed server-side logic using PHP and Laravel, managing databases with MySQL to create robust, secure applications with seamless data handling and CRUD functionality.

**Version Control:** Managed code versions using Git and GitHub, ensuring smooth collaboration and version tracking in team-based projects.

**API Integration:** Integrated RESTful APIs and worked with JSON to enhance functionality and streamline communication between server and client-side components.

**Database Management:** Designed and optimized MySQL databases, ensuring data integrity and performance for a variety of applications.

**Content Management Systems (CMS):** Customized and managed websites using WordPress, leveraging themes and plugins to meet client requirements.

**Responsive Design:** Ensured optimal user experiences across devices using Bootstrap and Flexbox for responsive design and layout management.

**Problem Solving & Debugging:** Specialized in identifying and resolving issues related to performance and errors, with a focus on enhancing the overall user experience through performance optimization techniques.

**Project Collaboration:** Worked effectively in Agile environments, utilizing collaboration tools such as Trello, with a focus on client communication and teamwork to deliver projects on time.

### Internship

Coding Academy by Orange, Balqa, Jordan

May 2024 – October 2024

Full Stack Web Developert

#### Work Experiences:

- Completed over 10 projects utilizing HTML, CSS, JavaScript, and PHP.
- Developed and maintained responsive web applications optimized for various devices and browsers.
- Collaborated with team members using Agile methodologies and project management tools like Trello.
- Implemented data validation, authentication systems, and CRUD operations using PHP and MySQL.
- Designed and developed custom database schemas to meet application requirements.
- Integrated APIs and enhanced web functionalities with AJAX and JSON to improve user experience.
- Participated in code reviews and contributed to peer learning sessions, fostering innovation and quality improvement.

## Academic Projects

- **Portfolio Website**
  - Technologies Used: HTML, CSS
  - Built a responsive personal portfolio website showcasing skills, bio, and projects.
- **Quiz Website**
  - Technologies Used: HTML, CSS, JavaScript
  - Developed a quiz website with multiple features:
    - Dark/Light Mode toggle.
    - User authentication with validation.
    - Local and session storage for user data.
    - API integration for fetching quiz questions.
- **E-commerce Website**
  - Technologies Used: PHP, HTML, JavaScript, MySQL
  - Created an e-commerce platform for online clothing sales.
  - Managed product listings and shopping cart functionality.
  - Integrated MySQL for database handling and user information management.
  - Implemented secure checkout process.
- **Housing Rental Booking Website**
  - Technologies Used: Laravel, MySQL, Bootstrap, JavaScript
  - Collaborated on the development of a housing rental booking system.
  - Developed features such as user authentication, role-based access control, and property listings management.
  - Integrated advanced filtering options for property search.
  - Implemented booking and payment systems using an external API.
  - Designed responsive user interfaces with Bootstrap.

## Education & Credentials

Amman Al-Ahliyya University , Amman, Jordan

2017 - 2021

Bachelor's degree in Civil Engineering

## Personal Information

- **Marital Status:** Single
- **Languages:** Arabic and English
