Experience

Orange Coding Academy, Irbid
Full Stack Development Trainee

May 2024 – Present

Work Experiences:

- Successfully completed an extensive program in full-stack development, covering a wide range of front-end and back-end technologies. Supported the deployment of new technology solutions, gaining hands-on experience with enterprise IT environments.
- Designed and managed web applications utilizing technologies such as HTML/CSS, JavaScript, C#, TypeScript, and Angular. Collaborated in the design and implementation of database management solutions, enhancing data integrity and performance.
- Crafted responsive layouts and interactive user interfaces with Bootstrap and Angular.
- Developed and integrated APIs using ASP.NET Core Web API, improving data exchange and overall application functionality.

Projects

1- Elections ([github Link](#)) Description: The election website project is designed to facilitate both voters and candidates in the election process. The website is divided into a user side, which includes voters and

candidates, and an admin side for election supervision. The following document outlines the project details, team members, links to resources, and key functionalities.

2-Feedback System ([github Link](#)) Description: is a comprehensive course management platform developed as part of our 4th project at Orange Coding Academy. This platform facilitates seamless course management, feedback collection, and progress tracking, aiming to enhance the educational experience for both students and administrators.

3-HR System ([github Link](#)) Description: HR System, Streamlined HR processes including employee management, attendance tracking, and more.

Education

Full Stack Web Development Bootcamp by Orange Coding Academy (May 2024 – Present)

Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Courses

- HTML Development, Orange Coursat: Mastered the fundamentals of HTML, enabling the creation of well-structured, accessible web content.
- CSS Development, Orange Coursat: Gained proficiency in CSS for designing visually appealing and responsive web layouts.
- JavaScript Development, Orange Coursat: Developed skills in JavaScript for creating dynamic and interactive web applications.
