#### **Civil Engineer | Albustanji Contracting company**

JAN/2020 – SEP/2020

- Gained practical experience in civil engineering project management, technical analysis, and teamwork, developing analytical thinking and attention to detail.

## PROJECTS

### GitHub Finder with a compression tool Project

- Description: Leveraging the combined power of HTML, CSS, and JavaScript, I have created a dynamic environment where you can search for two GitHub users and effortlessly compare their profiles based on repositories and followers. It's like magic unfolding before your eyes.

### Sport Zone Project

- Description: Using React.js, I have designed a dynamic web page where users can create posts and engage in discussions through comments and replies. The platform offers a seamless and interactive experience for sharing thoughts and facilitating conversations.

### Bloom Beauty Project

- Description: Introducing Bloom Beauty, the #6th project developed at Orange Coding Academy. With a focus on providing an exceptional user experience, we have created a dynamic and responsive makeup e-commerce platform using React.js. From captivating visuals to seamless ordering, Bloom Beauty offers a range of features to enhance your shopping experience.
