FULL STACK WEB DEVELOPER

OBJECTIVE

Full Stack Web Developer with a Bachelor's in Software Engineering from Applied Science Private University. Skilled in both front-end and back-end development using MERN and PERN stacks, with hands-on experience in HTML, CSS, JavaScript, React, Node.js, PostgreSQL, MongoDB, Figma, and Odoo (CMS). Proficient in Agile methodologies and dedicated to crafting engaging, scalable web applications.

PROFESSIONAL SKILLS

- **Front-End:** HTML5, CSS3, Bootstrap, JavaScript, ReactJS, Tailwind CSS, Odoo (CMS), WordPress.
 - **Back-End:** Node JS, Express JS.
 - **Database:** MongoDB, PostgreSQL, Firebase.
 - **Soft Skills:** Continuous Learning, Leadership, Effective Communication, Agility, Time Management, Team Collaboration, Problem-Solving, Critical Thinking, Creativity and Innovation.
-

PROFESSIONAL EXPERIENCE

Mount Seir Tech

May 2025 - June 2025

Frontend Web Development Internship

- Collaborated on multiple projects, gaining hands-on experience in building dynamic and responsive user interfaces using Svelte.
- Built a fully responsive website using Svelte and Tailwind CSS, focusing on clean design and user experience.
- Participated in UI/UX discussions and translated design mockups into functional, accessible front-end components.

Orange Coding Academy

Dec 2024 - May 2025

Full-Stack Web Development Trainee

- Completed 9 projects successfully using various technologies, both independently and as a collaborative team member.
- Mastered modern web development technologies such as React, Node JS, MongoDB, Express JS.
- Skilled in using version control tools like Git and GitHub.
- Experienced in handling data using PostgreSQL database.
- Led product development and Scrum processes, ensuring effective project management and delivery.

Mafateeh IT & Media Solution

Mar 2024 - May 2024

Frontend Web Development Trainee

- Collaborated on multiple projects, gaining hands-on experience in building dynamic and responsive user interfaces using React.js.
- Completed a two-month intensive React.js training as a mandatory university requirement, developing robust web applications.

PROJECTS

FreedomRoad [GitHub Link](#)

Technologies used: ReactJS, Tailwind CSS, Node.js with Express.js, MongoDB and Mongoose, JWT, Stripe, Cloudinary, Axios

- Independently developed a full-stack interior decoration platform, implementing a modern tech stack and following best practices in software development and UI/UX design.
- Engineered a responsive admin dashboard with comprehensive CRUD operations, enabling efficient management of products, orders, and user data while implementing secure authentication using JWT.
- Integrated Stripe payment processing and Cloudinary image management, ensuring secure transactions and optimized media handling for product images and user profiles.
- Developed a scalable backend architecture using Node.js and Express.js, implementing RESTful APIs and MongoDB integration for efficient data management and real-time updates.
- Implemented advanced features including real-time notifications, shopping cart functionality, and wishlist management, enhancing user engagement and platform usability.

Al-Joud [GitHub Link](#)

Technologies used: ReactJS, Tailwind, PostgreSQL, React Router, React Redux

- Developed a dynamic, responsive web application using React and Tailwind CSS, delivering a modern UI tailored for donors, beneficiaries, and administrators.
- Integrated secure, role-based authentication with PostgreSQL, ensuring personalized access and safeguarding sensitive data across multiple user roles.
- Leveraged PostgreSQL for robust data management, while incorporating AI-driven features such as automated donation tax reports and an interactive chatbot for enhanced user assistance.
- Implemented multi-currency support and real-time SMS/email notifications to facilitate international donations, alongside gamification elements like badges and rewards to boost engagement.

CERTIFICATES

Version Control

Meta - Coursera

- Competent in shell commands for efficient development workflows and experienced with version control systems, including GitHub, for code management and collaboration.

Principles of UI/UX Design

Meta - Coursera

- Acquired foundational knowledge in UX design and research—emphasizing accessibility and user empathy—and developed practical skills in wireframing and prototyping with Figma, enhancing front-end development and design.

Introduction to Front-End Development

Meta - Coursera

- Proficient in front-end development with HTML, CSS, and responsive design; knowledgeable about front-end, back-end, and full-stack roles; and experienced using UI frameworks for efficient development and enhanced user experience.

EDUCATION

Full Stack Web Development Bootcamp - Orange Coding Academy

DEC 2024 - May 2025

Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Applied Science Private University

OCT 2020 - July 2024

Bachelors Degree in Software Engineering
