• **Content Moderator at Csmena , Amman**

OCT 2022 To JUL 2023

Tasks : Keep social media safe by moderating the content , and remove any content that violet the community standards.

Academic Projects

(1) [Personal Portfolio](#)

Description: project, 'My Personal Portfolio' I used enjoyable technology in this project, utilizing Bootstrap for the Navbar and developing the rest of the sections using HTML and CSS only.

(2) Building an [Online Quiz Website](#)

Description: we developed an interactive online quiz website! Users can take their pick from three different quizzes, all accessible from a single platform. After completing a quiz, the website displays their score along with detailed results, highlighting both correct and incorrect answers.

To bring our website to life, we used a variety of technologies:

HTML & CSS: The foundation of web development, these tools allowed us to structure and style our web pages.

Bootstrap: This framework ensured our website looked great and functioned seamlessly across all devices.

JavaScript: We leveraged JavaScript to add interactive features, validate forms, and manage data effectively.

(3) [ElectroSpark](#) E-Commerce Platform

Description:

We are thrilled to introduce **ElectroSpark**, our latest e-commerce platform designed to deliver an exceptional shopping experience. As a full-stack development team, we have successfully implemented a robust online store utilizing PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap. We are proud of the comprehensive platform we have created during our training period.

(4) [ChaletFinders](#) - Chalet Rental Website

Description:

Our goal is to build an easy-to-use chalet rental website that makes booking chalets simple and stress-free. **ChaletFinders** offers a great experience for users and provides helpful tools for property owners and admins to manage their chalets. The platform was developed using Laravel, SQL Database, JavaScript, Bootstrap, HTML, and CSS.
