## Full Stack Developer

### CAREER OBJECTIVE

As a Business Information Technology graduate from Hashemite University, I am committed to contributing to the constantly evolving field of technology, where innovation and problem-solving are essential. With a passion for software development and a strong drive for teamwork, I am eager to further develop my skills and make a positive impact in the field of information technology

### Core Competencies

Full Stack Development (HTML, CSS, Bootstrap, PHP, Laravel, MySQL, React), Process Evaluation, Data Analysis, Git & GitHub Collaboration, Requirement Analysis, Critical Thinking, Problem-Solving, Project Management, Creativity & Innovation, Work Under Pressure, Time Management, Effective Communication, Attention to Detail, Team Collaboration, Fast Learner, Agile Methodology.

### Technical Knowledge

**Programming Languages:** Java, C++, JavaScript, HTML, CSS, PHP

**Frameworks & Libraries:** Laravel, React, Bootstrap

**Database:** SQL, MySQL

**Software Development Practices (SDLC):** Scrum, Product Owner, Agile

**Other Tools:** Git (Version Control System)

### Bootcamp

Orange Coding Academy, Amman, Digital

Sep 2024 – Jan 2025

Intern, Full stack web developer

#### Work Experiences:

- Waqt – E-commerce Platform for Watches  
As the product owner and full-stack developer, I led a team to create a full-stack e-commerce platform for watches, integrating Google login, PayPal (with sandbox setup), and ChatGPT for customer support, ensuring a seamless user experience. [GitHub Repo](#)
- FIT ME - Fitness Club Website  
An interactive, responsive fitness club website designed to boost member engagement, built with HTML, CSS, and JavaScript. Designs were translated from Sketch to code using Figma, with team coordination on Trello and API integration for dynamic data. [GitHub Repo](#)
