## Academic Projects

### 1) Portfolio Website:

Description: Created a responsive portfolio to showcase my web development skills using HTML, CSS, JavaScript, featuring dynamic content updates and an intuitive user interface.

### 2) E-Commerce Website:

Description: Developed a fully functional e-commerce platform for selling home appliances. Implemented features like user

authentication, product catalog with filters, and secure payment integration.

Technologies Used: PHP, MySQL, JavaScript, HTML/CSS

### 3) RumQuest Booking System:

• Description: This project is a web-based booking system for adventure tours in Wadi Rum, developed using Laravel, a powerful

PHP framework. The system allows users to explore available adventure packages such as jeep tours, camping, and hiking while admins view and edit

pricing, schedules, and customer bookings. Technologies Used: PHP, MySQL, JavaScript, HTML/CSS
