 - **Tools :** MS Office, VS Code, Github, Figma, Trello, Canva, Postman, Odoo.
 - **Software Development Practices (SDLC):** Scrum and Agile.
-

SOFT SKILLS

- Problem-Solving .
 - Communication.
 - Fast and Self Learning.
 - Teamwork .
 - Adaptability.
 - Attention to Details.
 - Creativity.
-

EXPERIENCE

**Full-Stack Web Development Trainee || Orange Coding Academy, Zarqa/Jordan
Dec/2024 – Present**

- Enhanced user engagement through UX/UI design.
- Improved soft skills by focusing on communication, time management, teamwork, emotional intelligence, critical thinking, and adaptability.

- Performed daily individual tasks to advance technical skills.
 - Collaborated with an IT team on short-term projects, enhancing both teamwork and technical skills to improve front-end and back-end systems.
 - Participated in the design and implementation of database management solutions, improving data integrity and performance.
-

PROJECTS

- **Coffee Shop Website (Figma):**

Designed an interactive and visually appealing coffee shop website using Figma. The website effectively showcases the shop's offerings, enhances customer engagement, and facilitates online ordering for pickup or delivery. [Github](#)

- **Personal Portfolio Website (HTML5, CSS3):**

Developed a fully responsive portfolio website to showcase web development skills, professional experience, and accomplishments. The static web application is built with HTML5 and CSS3, ensuring a modern and accessible design. [Github](#)

- **Gifting Services Website (JavaScript):**

Designed and developed a dynamic and fully responsive gifting platform that allows users to explore, customize, and purchase unique gifts for various occasions. The platform provides an engaging user experience with seamless navigation and interactive features. [Github](#)

- **Task Management Web Application (React JS, Firebase):**

Built a React-based task management system to help employees organize their daily tasks efficiently. Integrated Firebase for real-time data synchronization, ensuring smooth task tracking and management. [Github](#)

- **Property Rental Platform (React, Redux & JSON Server):**

Developed a feature-rich rental platform using React and Redux, with a JSON server to handle backend operations. The platform streamlines the rental process, making it easier for landlords and tenants to connect and manage properties. [Github](#)

- **Charity Services Web Application (Express, PostgreSQL, React):**

Created a user-friendly web application to support charity organizations in managing donations and services. Implemented Express and PostgreSQL for backend operations while using React for an intuitive and accessible front-end experience. [Github](#)

- **Dynamic News Website with MERN Stack (Express, MongoDB, React):**

Created a dynamic news platform designed to provide real-time updates, engaging articles, and interactive features for readers and journalists. It allows users to explore news articles across various categories and allows journalists to create, publish, and manage content. The platform also enables users to like, comment, share, and bookmark articles for a personalized news experience. [Github](#)

- **Hospital Management System (Next.js, MongoDB):**

Developed a fully responsive hospital management system specialized in ophthalmology using Next.js (App Router) and MongoDB with Mongoose. The platform supports multiple user roles (Admin, Doctor, Nurse, Patient) and enables secure handling of appointments, patient records, billing, and staff scheduling. Integrated JWT authentication and implemented dynamic dashboards with real-time analytics.

[Github](#)

- **Cloud Kitchen Ordering System (Odoo):**

Developed a responsive cloud kitchen platform using Odoo Community Edition, featuring real-time order tracking, customizable delivery/pickup options, and an admin dashboard for kitchen operations. Included custom modules for order stages and delivery estimates, with a mobile-first design for smooth user experience. [Github](#)

EDUCATION

- **Full-Stack Development Bootcamp || Orange Coding Academy 11/2024 – Present**

Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

- **Bachelor's degree in Management information systems (MIS) || University of Jordan 08/2020 – 09/2024**
