### Profile

As a recent graduate in Software Engineering, I am fueled by a fervor for crafting inventive solutions. My proficiency extends to adept application development using both Php laravel and Flutter, underpinned by a robust understanding of software design and programming principles. I am keen to contribute my technical acumen and imaginative flair to dynamic projects, synthesizing a comprehensive academic grounding with practical experience.

### Technical Skills

**FrontEnd**, *Html , CSS , JS , Bootstarp , React*

**BcakEnd**, *PHP, Laravel , C++ , CodeIgniter*

**Database**, *MySQL*

**Operating Systems**, *Windows*

**Software Development Practices (SDLC)**,  
*Agile, Scrum*

**Tools**, *Visual Studio Code, Figma, Trello, GitHub*

### Soft Skills

**Teamwork** | **Problem-solving**

**Work ethic** | **Adaptability**

**Time management** | **Attention to detail**

### Professional Experience

**Back-End PHP laravel, Double Support - Internship** 05/2023 – 10/2023  
Amman, Jordan

- Created web applications and components using PHP programming language.
- Managed user authentication and authorization for servers and various environments.
- Configured and deployed existing and future REST APIs.
- Suggested changes and enhancements for websites by offering specific solutions and improvements based on end-user needs.

**Full-stack developer Trainee, Orange Coding Academy** 09/2024 – present  
Amman, Jordan

Completed an intensive four-month training program at Orange Academy, focusing on comprehensive web development. 09/2024 – 01/2025

- Gained hands-on experience and proficiency in front-end technologies:
  - Developed interactive web pages using HTML, CSS, and JavaScript.
- Enhanced back-end development skills through:
  - Building and maintaining server-side logic with PHP.
- Developed and integrated RESTful APIs to enable seamless communication between client-side and server-side applications.

### Projects

**AHU Community App** 11/2022 – 01/2023

- Create a single platform that brings university students together in one place.
- Facilitating the student to search for university housing through a group to display Housing ads are available.
- Providing an electronic study bag that includes most of what the student needs from study plans and important links.

**Portfolio, Website**

- Developed a personal portfolio website using HTML and CSS, showcasing projects, skills, and professional experience. Focused on clean, responsive design principles to ensure an accessible and visually appealing user experience across devices.

**Food Mart, E-commerce Web App**

- My team and I developed a food mart website using HTML, CSS, and JavaScript, with data sourced from a JSON file. We created mockups and prototypes in Figma, integrating features like a shopping cart, favorites list, and search bar to enhance the user experience, showcasing our ability to design interactive web applications.

**Courses**

- The Complete Flutter Development Guide,**  
*udemy*  
10/2023 – 12/2023
- Work on AHU Community app.
- Adobe Photoshop,** *Science Lovers Academy*  
01/2021 – 02/2021

**Languages**

- Arabic**  
Mother Tongue
- English**  
Intermediate

**Education**

- Bachelor of Software Engineer** 2019 – 2024
- Student at Al-Hussein Bin Talal University
- Full Stack Web Development Bootcamp,** *Orange Coding Academy* 09/2024 – present
- Intensive course in Full Stack Web Development by Orange Coding Academy, conducted in collaboration with Simplon.Co and Princess Sumaya University for Technology (PSUT)
