## Profile

I am a passionate and skilled front-end developer with a strong foundation in JavaScript and React, as well as proficiency in HTML and CSS. I have a keen eye for design and can seamlessly integrate it into my projects using Figma. My expertise extends to responsive web development, where I leverage Bootstrap and Tailwind CSS to create user-friendly, visually appealing interfaces.

## Professional Experience

### *Web development training at Luminus College for two months*

#### **Intern at Coding Academy by Orange**

Intern at Coding Academy by Orange from September 2023 to December 2023 (4 months). Participated in an intensive Front-end Web Development course in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT) from September 2023 to December 2023.

#### **Key Achievements:**

Effectively managed version control and collaborative development using Git and GitHub, ensuring seamless teamwork and efficient code management. Applied HTML, CSS, and JavaScript to craft intuitive and visually appealing user interfaces, thereby enhancing the overall user experience. Utilized ReactJS to develop dynamic and responsive web applications, elevating user experience and interactivity.

Independently conceived, developed, and deployed five projects, showcasing a diverse range of technical skills and demonstrating creative problem-solving abilities.

## Education

**PERSON BETC LEVEL 5 HIGHER NATIONAL  
DIPLOMA IN SOFTWARE ENGINEERING,  
LUMINUS TECHNICAL UNIVERSITY COLLEGE**

09/2021 - 02/2023

**4 Months Front-end web developer  
Bootcamp, Coding Academy by Orange**

09/2023 - 12/2023

## Skills

### Front-End Development

Proficient in JavaScript, React, HTML, and CSS to create dynamic and responsive web interfaces.

### Styling Expertise:

Proficiency in tailwind CSS and Bootstrap to craft visually engaging and user-friendly web applications.

### Design Integration

Skilled in utilizing Figma for seamless design integration, ensuring a cohesive user experience.

## Projects

**Library website,** is a collaborative project developed by a dedicated team using HTML, CSS, and JavaScript technologies. The website serves as an interactive platform for book enthusiasts, offering a user-friendly interface to explore and discover a diverse range of literary works.

**E-commerce Websit,** is a collaborative project developed by our skilled team using cutting-edge technologies such as React for the front end and Node.js for the back end. This dynamic e-commerce platform offers a modern and intuitive shopping experience for users
