## Backend developer

✉ Reem.abdalla98@gmail.com ☎ 0776195354 in /reem-hasan-abdalla/ 🌐 /ReemHasanA

### PROFILE

A junior backend developer is responsible for designing, developing, and maintaining the logic and APIs of the website. Working closely with front-end developers to ensure that the user experience is seamless and that the application is scalable and reliable.

### PROFESSIONAL EXPERIENCE

#### Backend web developer Trainee, Orange Coding Academy

09/2023

- Utilized HTML, CSS, and JavaScript to create intuitive and visually appealing user interfaces, enhancing overall user experience.
- Created an API using PHP that allows users to retrieve information from database.
- Design and implement databases (MYSQL).
- Testing and debugging using Postman.

### PROJECTS

#### FurnitureStore, An e-commerce website using PHP and MYSQL. and API to connect the front-end.

It's a furniture e-commerce website with admin and user side where they can make a full procedure. Retrieving and storing data from/in database.

#### Voulanteering, A backend system created using PHP and MySQL

It allows administrators to manage events, categories, and user profiles, and enables users to search for events, register for them, and interact with past events.

#### Quiz Online, A fully responsive website using HTML, CSS, JavaScript connected with a JSON file.

It assesses users' knowledge and provides practice opportunities, featuring a resource page, a one-way timed quiz, and detailed results.
