## Full Stack Web Developer

### CAREER OBJECTIVE

A recent graduate of an intensive software development training program at Orange Coding Academy, Irbid/Jordan, where I completed 1000 hours of technical training and 100 hours of soft skills training. I gained practical experience in software development, web technologies, and database management. I developed advanced skills in C#, ASP.NET Core API, JavaScript, and SQL through hands-on projects, including an election project using the MVC framework. I demonstrated my ability to apply technical skills in real-world scenarios by building web applications and collaborating in team environments.

In addition, I hold a Bachelor's degree in Statistics from Yarmouk University, where I acquired foundational knowledge in data analysis and problem-solving. I am eager to leverage my academic training and internship experience in web development positions.

### Technical Skills

**Front-End:** HTML/CSS, JavaScript, Bootstrap, Angular

**Back-End:** C#, ASP.NET MVC, ASP.NET Core Web API, TypeScript

**Database:** SQL, SQL Server

**Operating Systems:** Windows

**Software Development Practices (SDLC):** Agile, Scrum.

**Tools:** Visual Studio, Visual Studio Code, Figma, Trello. Technical Skills: OOP, Git (Version Control Systems)

### Soft Skills

Continuous Learning and Skill Development Adaptability Customer-Centric Approach Active listening	Critical Thinking Problem-Solving Ability Creativity and Innovation Patience Self-awareness	Time Management Effective Communication Attention to Detail Team Collaboration
--	---	---

### Experience

**Orange Coding Academy, Irbid/Jordan**

**May 2024 - Present**

**Full-Stack Web Development Trainee**

#### Work Experiences:

- Completed intensive training in full-stack development, mastering both front-end and back-end technologies at Orange Coding Academy.
- Developed and maintained web applications using HTML, CSS, JavaScript, C#, TypeScript, and Angular, focusing on performance and scalability.
- Created responsive and interactive user interfaces with Bootstrap and Angular, delivering optimized designs for various devices.

- Built and consumed APIs with ASP.NET Core Web API and ASP.NET MVC to enable efficient data exchange and enhance application functionality.
- Worked with SQL and SQL Server, handling database management, writing complex queries, and ensuring data integrity.

---

## Projects

- 1) **Parliamentary Jordanian Election System** ([GitHub Link](#))  
**Description:** This system has been developed to facilitate online voting, application submission, advertisement management, and election result display. The primary objective is to create a comprehensive platform for managing elections within Jordan, utilizing ASP.NET MVC5 with C# for its core functionalities.
- 2) **Feedback System** ([GitHub Link](#))  
**Description:** Feedback System includes functionalities such as user authentication, course management, dynamic feedback submission, and result visualization using HTML, CSS, Bootstrap, JavaScript, and C# ASP.NET Web Forms.
- 3) **HR Management System** ([GitHub Link](#))  
**Description:** HR system designed to facilitate various HR-related tasks and processes using HTML, CSS, Bootstrap and JavaScript.
- 4) **Mini E-Commerce System** ([GitHub Link](#))  
**Description:** development of a fully functional e-commerce website using modern web technologies, including HTML, CSS, JavaScript, SQL Server, C#, and ASP.NET MVC.
