## SUMMARY

As a solution-focused Full Stack Developer, I have a strong grounding in practical experience. I am highly self-motivated and have a track record of motivating others as well. I am passionate about data technology and am committed to staying up-to-date with the latest innovations and working alongside this generation of technology users. With the technology era booming, I am eager to take on new challenges and help drive technological progress forward.

## WORK EXPERIENCE

**From 2022 to 2023**, I worked in data entry at Qattan Global.

During my time at Qattan Global, I gained valuable experience in data management and organization, as well as in working effectively as part of a team.

**From 2013 to 2021**, I worked in data entry at Rabayaa Pharmacy. During my time there, I was responsible for accurately and efficiently inputting various types of data, such as customer information, inventory records, and financial data. I was committed to ensuring the data was entered promptly and without errors, which helped to maintain the smooth operation of the pharmacy. I gained valuable experience in data management and organization during my time at Rabayaa Pharmacy, which I can bring to future roles.
