Bootstrap

HTML, CSS, JavaScript

PHP

SQL

Laravel

React Native

Android

## SUMMARY

I am a trainee at the coding academy by Orange Jordan where I'm taking an intensive training in full-stack web development. I aim to develop my programming skills by joining IT companies as an intern or as an employee. Since there is a huge demand for programmers and full stack web developers in Jordan, thereby I hope to add a value to the company that I will work in.

## RELEVANT EXPERIENCE
