

Yahia Mosleh

My passion in life is to learn new things, my favorite work environment is where I can be innovative and my pursuit for this passion made me choose **Data Science** as a major of study, I'm excellent with **Mathematics**, **Statistics** and **Logical Problems** and I find it amusing to interpret and **Analyze Data** with **Python** to generate Ideas that have the potential to make a change

EXPERIENCE

Data Science Intern

Tahaluf Al Emarat Technical Solutions

March 2023 - Present (Intern)

→ started everything from zero: linear algebra, probabilities, python from scratch, python data science used from all the steps that should be done in a data science project, understanding machine learning algorithms from scratch and apply them.

→ Error Analysis and how you can optimize the machine learning model performance.

→ worked in many projects: Resumes extraction using **re** library, house price prediction, car price prediction, banking dataset analysis and classification,.....

Data Science Intern

Orange

May 2023 - July 2023 (full time intern)

→ Gained a solid understanding of the connection between Mathematics, statistical and data science which I effectively implemented using clean and efficient Python code. which enabled me to identify and tackle business challenges

→ Utilized various machine learning models, including prediction classification and clustering models to conclude the optimal decision for any given business case.

Amman / Irbid

+962787797889

meslehyahya@gmail.com

Skills

Data Visualization.

SQL for Data Analysis

Python for data science

Team Leadership

Professional Communication

Microsoft Office (Word, Excel, PowerPoint)

Certificates

Data Analysis track course
Udacity

Certificate of Recognition,
AIESEC in Jordan

Data science professional certificate by IBM,
Coursera

Languages

Arabic (Native speaker)

English (verbal and written)

German (B1)

→ Employing Python to visually analyze and interpret data, while also adeptly communicating these findings both verbally and in written form. customized to meet the specific needs and preferences of the intended audience.

Content Moderator Advisor

Webhelp, Amman

Sep 2021 – Nov 2022 (contract)

→ Responsible for user-generated content submitted to an online platform. The content moderator's job is to make sure that items are placed in the right category and are free from scams.

Math Teacher

Al-Itihad Al-Sharq institution

February 2021 – February 2022 (contract)

→ Using the Science lab for experiments, presentations using PowerPoint and Scientific simulations, finding new approaches and methodologies to challenge my students and ignite their interest and passion in every class.

→ I was thrilled to prepare my students to teach classes or even showcase their experiments to the class, I saw them develop on a personal level and gained the confidence they need to achieve the great destiny that is meant for them.

Marketing Team leader

AIESEC in Jordan

February 2020 – February 2021 (volunteer)

→ Developed campaigns and specific marketing strategies for the organization.

→ Planned branding to promote AIESEC's brand and products. Collected sponsorships and hosted many remarkable guests as Speakers.

EDUCATION

Bachelor of Mathematics — Yarmouk University

GPA: 83.1
