## CAREER OBJECTIVE

Dynamic Full Stack Developer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js) and a background in Product Design from LTUC. After a successful career shift from product design to web development, I bring a unique combination of technical proficiency and design insight. With five years of experience in sales, including a recent role as Assistant Manager at a computer sales company managing retail and B2B operations, I have developed strong management, client relations, and problem-solving skills. Seeking to leverage my diverse background and technical skills in a challenging full stack development role to drive innovation and contribute to impactful projects.

## Technical Skills
