- SQL
- Data Visualization

Language

English(Advanced)

Arabic(Native)

Experience

● Aug/2023 - Oct/2023

Data Science Academy By Orange Intensive Trainee

I have had the incredible opportunity to be an intern in the field of Data Science and Business Intelligence at Orang.

During this time, I immersed myself in the dynamic world of data analysis and reporting, with a primary focus on mastering Power BI and Power Point. It has been a transformative experience, as I learned how to harness the power of data to drive informed decision-making.

My responsibilities ranged from gathering and cleansing data to creating visually appealing and insightful reports using Power BI, ultimately helping the company make data-driven choices that led to improved efficiencies and better strategic planning.

● Feb/2022 - Aug/2023

Efficiency Information Technology Company Junior Data Analyst

As a Junior Data Analyst at Efficiency Information Technology Company. This experience has been nothing short of transformative for me. I have been immersed in a dynamic environment where data is the heartbeat of decision-making.

My role has taught me the significance of data-driven insights in shaping business strategies and optimizing processes. Collaborating with a talented team of professionals, I've not only honed my technical skills but also gained a deep appreciation for the value of teamwork and effective communication in the world of data analytics.

Furthermore, my time as a Junior Data Analyst has exposed me to a wide range of industries and business domains. This diversity has expanded my horizons, allowing me to see how data analytics can be applied in various contexts, from finance to healthcare to marketing. It's been fascinating to adapt and tailor my analytical approach to the unique challenges and opportunities each domain presents.
