PROJECTS

Website "Organic"

August 2023

Discover farm-fresh goodness on our e-commerce platform – a colorful selection of ripe fruits and crisp vegetables, conveniently delivered to your doorstep.

Technologies used: HTML , CSS, Bootstrap , JavaScript and **PHP**.

🔗 **Source Code :** [Organic Website](#)

Website "FoodSHare"

September 2023

Volunteering website compassionate online platform dedicated to reducing food waste and alleviating hunger. Our user-friendly website connects individuals, restaurants, and businesses with surplus food to those in need. We facilitate seamless food donations, fostering a sense of community and sustainability. Main Features: Login with Google and Facebook, PayPal as a payment method gateway.

Technologies used: HTML , CSS, Bootstrap , JavaScript and **Laravel**.

Mini Chat Application

September 2023

It's a part from "FoodSHare" website, I worked on building a chat **from scratch** between users so that we would give them the opportunity to communicate with each other. The message also appears to the sending person with a blue check mark if it is viewed by the receiving person.

Technologies used: HTML , CSS, Bootstrap , JavaScript and **Laravel**.
