

SHAHED ALTARAKIEH

FULL STACK DEVELOPER

Jordan, Amman | shahedaltrakiah@gmail.com | +962 7 7269 4977 | [LinkedIn](#) | [GitHub](#)

SUMMARY

Experienced in creating impactful, user-centered websites with expertise in front-end (HTML, CSS, JavaScript, React, Bootstrap) and back-end (PHP, Laravel, ASP.NET, C#, MySQL) technologies. Dedicated to delivering responsive, secure, and accessible solutions that meet unique client needs. A proactive learner focused on continuous improvement and effective team collaboration.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Orange Coding Academy, Amman

09/2024 - Present

- As a Full Stack Developer at Orange Coding Academy, I develop responsive web applications using HTML, CSS, JavaScript, Bootstrap, PHP, Laravel, and WordPress. My focus is on delivering efficient front-end and back-end solutions, utilizing MVC, OOP, and API integration to enhance user experience.

Web Development | Athar charity, Amman

06/2022 - 01/2023

- Collaborated with a team to create an impactful website for Athar Charity. This program is implemented by DOT Jordan with support from Abdul Aziz Al Ghurair Refugee Education Fund.

Freelancer | BOT & NRC, Amman

2021 - 2022

- Content Creator at Keys Development - 2021.
- Data entry & collection project at One South - international development consulting and research firm - 2022.

Member of the Council | Children Municipal Council, Amman

2015 - 2018

- A unique experience towards introducing the concepts of democracy, leadership participation at the local level, and human rights values.

SKILLS

• Technical skills:

- Front-End: HTML5, CSS3, Bootstrap, JavaScript, React JS

PROJECTS

- **iHelp** | Web-based [[GitHub](#)]

Led the development of iHelp for the University of Jordan, connecting volunteers with students with disabilities. This inclusive system, built with HTML, CSS, JavaScript, and Bootstrap, highlights my dedication to social impact and creating accessible academic environments.

- **My Portfolio** | Website [[GitHub](#)]

Designed a personal portfolio to showcase my skills, projects, and professional journey. Built with HTML, CSS, JavaScript, and Bootstrap, the site serves as a dynamic, user-friendly platform for potential employers to explore my work and achievements.

- **STEAM** | Website [[GitHub](#)]

Built an interactive educational website for children aged 4-12 based on the STEAM approach (Science, Technology, Engineering, Art, Math). Leveraged HTML, CSS, JavaScript, JSON files, and APIs to dynamically fetch and display content, fostering curiosity and hands-on learning. This project enhanced my skills in web design and data integration for young audiences.

- **Nest & Buy E-commerce** | Website [[GitHub](#)]

Developed the full-featured e-commerce platform Nest & Buy, focused on a streamlined, user-friendly shopping experience. Built with HTML, CSS, JavaScript, and Bootstrap, and implemented a robust back end using MVC architecture, OOP principles in PHP, and an admin dashboard to manage products, orders, and inventory. This project showcases my expertise in both front-end and back-end e-commerce development.
