## Full Stack Web Developer

### CAREER OBJECTIVE

A passionate and dedicated software developer with hands-on experience in web development through internships and academic training. Skilled in Angular, Laravel, and PHP, with a strong foundation in both backend and frontend development. Adept at problem-solving, analytical thinking, and building efficient web applications. Strong collaboration and communication skills, demonstrated through teamwork and group interviews at Orange Academy. Eager to apply technical expertise, continuously learn, and contribute to innovative software solutions in a dynamic work environment.

### Core Competencies

Software Development  
Process Evaluation  
Performance Review  
Data Analytics Skills  
Requirement Analysis

Critical Thinking  
Problem-Solving Ability  
Project Management  
Creativity and Innovation  
Customer-Centric Approach

Time Management  
Problem-Solving Ability  
Effective Communication  
Attention to Detail  
Team Collaboration

### Technical Knowledge

**Programming Languages:** PHP, React JS, Laravel, JavaScript, HTML/CSS,

**Database:** SQL, MySQL, SQL Server

**Operating Systems:** Windows, Linux/Unix

**Software Development Practices (SDLC):** Scrum, Agile

**Other Tools:** MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

### Internship

**Orange Coding Academy**

(Dec 2024 – present)

**Intern, Full Stack Development(hands on experience)**

#### Work Experiences:

- Assisted in the development and maintenance of web applications, gaining hands-on experience in both front-end and back-end technologies.
- Contributed to the implementation of database management solutions, improving data integrity and performance.
- Supported the deployment and integration of software solutions, gaining insights into scalable application development.
- Worked with technologies such as Laravel, and PHP to develop and enhance web-based systems.
- Collaborated with a team to troubleshoot and resolve technical issues, enhancing problem-solving and debugging skills.
- Participated in code reviews and followed best practices for software development and version control.
- Engaged in Agile development practices, attending team meetings and contributing to project planning.

## Academic Projects

### 1) Quiz Website

**Description:** Developed an interactive quiz platform with user authentication and result tracking. Designed a dynamic question bank and scoring system to enhance user engagement. Implemented the front-end using HTML, CSS and JS.

### 2) E-Commerce Platform (Gilded Garments)

Led the development of the Gilded Garments online store as Scrum Master, utilizing Agile practices to guide the team through project phases. Designed and implemented a seamless shopping experience using HTML, CSS, Bootstrap, PHP, JavaScript, and MySQL. Collaborated closely with the team to create a fully functional e-commerce platform, including product listings, user authentication, and a shopping cart system. Managed the integration of secure payment gateways and optimized the platform for smooth navigation and performance. Oversaw the project's development lifecycle, ensuring the team met deadlines and adhered to best coding practices, while maintaining high product quality.

### 3) Chalet Rental Website

Developed a chalet rental platform, incorporating property search, booking system, and real-time availability management. Designed and implemented advanced filtering features, allowing users to search chalets based on location, price range, and availability. Integrated a booking system that calculates prices dynamically based on selected dates and property details. Created a relational database using Laravel to handle chalets, bookings, and user management. Implemented a seamless user experience, allowing for easy property reservations, real-time availability updates, and secure booking management. Focused on backend logic and database design to ensure the platform's scalability and data consistency.

## Education & Credentials

### Yarmouk University, Jordan

2022

Bachelor's in biomedical engineering

Grade: 83

## Conferences and Training Attended:

- Orange Coding Academy, Jordan (2025)  
Full Stack Development Training
- Sky software, Jordan (2024)  
Front end Development Training

## Personal Information

- **Nationality:** Jordanian
- **Date of Birth:** 28 Jan 1999
- **Languages:** Arabic and English
