

# Hasan Darweesh

## Full Stack Developer

Jordan | (+962)787280118 | [hasan.darweesh@gmail.com](mailto:hasan.darweesh@gmail.com) | [Linkedin](#) | [Github](#)

---

### SUMMARY

Dynamic Full Stack Developer with hands-on experience in creating responsive web applications and robust backend systems. Proficient in HTML, CSS, JavaScript, and Laravel, I excel in collaborative environments, utilizing GitHub for version control. Successfully designed and maintained databases, demonstrating strong problem-solving skills and a commitment to delivering high-quality solutions.

---

### TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript and Bootstrap
  - **Backend:** PHP and Laravel
  - **Tools :** VS Code, Github , Figma, Trello
  - **Database:** MYSQL
- 

### Experience

#### Computer Science Teacher

Al-Qabisi Secondary School for Boys

August- 2023 – June-2024

- Taught computer science to high school students.
  - Prepared students for exams and provided additional support as needed.
  - Integrated practical projects to reinforce theoretical knowledge.
- 

### Education

#### Full-Stack Development Bootcamp | Orange Coding Academy | 1/2025 – Present

- Developed responsive and interactive web applications using HTML, CSS, JavaScript.
- Designed and maintained databases using MySQL and implemented backend logic with Laravel.
- Used GitHub for version control and collaborated using Trello for project management.
- Participated in sessions on business concepts, agile methodologies, teamwork, communication, and leadership to enhance professional and interpersonal skills.

#### Bachelor of Computer Science | 3/2018 – 2/2022

World Islamic Sciences and Education University

- GPA (Very Good).
- 

### Certifications and Training

#### Frontend Developer Training | Jordanian Computer Society

11/2021 – 2/2022

Completed hands-on training focused on building responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap. Developed mini projects applying modern frontend development practices.

## **Projects**

### **MedXpert – Medical Clinic Booking Platform**

- Developed a full-featured medical booking system using PHP Laravel, MySQL, HTML, CSS, JavaScript, and Bootstrap. The platform allows doctors to register their clinics, set availability, and manage appointments. Patients can browse clinics by specialty, choose a doctor, and book suitable time slots.

### **Ihsan – Charity Donation Website (Hackathon Project)**

- Designed and developed a donation platform during a hackathon using HTML, CSS, JavaScript, and Bootstrap. The site allows users to contribute to various causes such as food, water, clothing, and orphan support through a simple and responsive interface.

### **Craftify – Custom Product E-Commerce Platform**

- Developed a dynamic online store using PHP , MYSQL, HTML, CSS, and JavaScript that allows users to personalize products (e.g., clothing, mugs) with custom text. Implemented multi-role access control for Users, Admins, and Super Admins, with order processing and delivery features.

### **Riwaya Hub – Online Book Reading Website**

- Built a responsive website using HTML, CSS, and JavaScript that allows users to browse and read books online with a user-friendly interface.

### **Personal Portfolio Website**

- Designed and developed a responsive personal portfolio using HTML and CSS to showcase projects and skills.

### **Uni Park Graduation project**

- Developed a system to organize car parks based on time and availability.
- Technologies used: PHP, MySQL, HTML, CSS, JavaScript.
