## MY PROFILE

I'm computer engineer. A passion **full-stack** developer proficient in **front-end** technologies combined with strong **back-end** expertise. Eager to leverage my skills in both client-side and server-side development to deliver high-quality, **responsive** web applications. Ready to contribute to **dynamic** projects and continuously expand my technical knowledge.

## EXPERIENCE

### **Orange Coding Academy**

*Full Stack Web Development Bootcamp*

**Amman, Jordan**

*Sep 2024 – Present*

- Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.Co and Princess Sumaya University for Technology (PSUT)
- I have developed strong **problem-solving**, communication, teamwork, and time management skills, working in **Agile** environments and managing teams effectively.
- In **front-end development**, I specialize in building responsive web pages using **HTML, CSS, Bootstrap**, and **JavaScript, React** and have worked with **APIs** and **JSON** to create dynamic user interfaces. I am also currently learning **React** to further enhance my skills in building modern web applications. I collaborate closely with designers using **Figma** to ensure user-friendly, intuitive designs.
- On the **back-end**, I use **PHP** for server-side development and manage databases with **SQL** to build efficient, data-driven applications. I am also learning the **Laravel** framework and deepening my understanding of back-end principles to become proficient with various frameworks.

### **Globitel**

*Web Developer, Intern*

**Amman, Jordan**

*Mar 2024 – May 2024*

- In **front-end development**, I have experience using **HTML** and **CSS** to create responsive, user-friendly web pages.
- I am proficient in **SQL** for managing databases, performing queries, and optimizing data storage.
- I have a foundational understanding of C# and ASP.NET, enabling me to work on basic .NET applications.
- I have developed **CRUD systems** (Create, Read, Update, Delete) to manage data efficiently in web applications.

## SOFT SKILLS

Process Evaluation	Critical Thinking	Time Management
Analytical Skills	Creativity and Innovation	Problem Solving
Adaptability	Leadership	Effective Communication
Accountability	Continues Learning	Attention to Details

## TECHNICAL SKILLS

- Front-End: HTML5, CSS3, Bootstrap, Javascript, React JS.
- Back-End: PHP and Laravel
- Database: MySQL
- Software Development Practices (SDLC): Agile, Scrum.
- Tools: Visual Studio Code, Figma, Trello, GitHub.

## PROJECTS

---

ore	MobixSt Present
My team and I developed a dynamic e-commerce website for a phone store using <b>Bootstrap</b> , <b>JavaScript</b> , <b>PHP</b> , and <b>SQL</b> . The site features a responsive design, allowing users to browse products, manage their cart, apply coupons and complete purchases seamlessly. We implemented a <b>CRUD</b> (Create, Read, Update, Delete) system for managing products and created an admin dashboard for overseeing these operations, along with a super admin dashboard for managing admin users. With SQL for inventory and user management and PHP for server-side operations, this project highlights my skills in full-stack development and teamwork.	

Food Mart	2024
-----------	------

As part of my experience, my team and I developed a food mart website using **HTML**, **CSS**, and **JavaScript**. We sourced data from a **JSON** file and utilized **Figma** to create mockups and prototypes for the project. The website features essential functionalities, including a shopping cart, a favorites list, and a search bar, enhancing the user experience. This project demonstrates my ability to design and implement interactive web applications effectively.

Portfolio	2024
-----------	------

I developed my portfolio using **HTML** and **CSS**, showcasing my skills and projects in a clean and visually appealing format. The portfolio highlights my web development capabilities and serves as a personal branding tool.

## EDUCATION

---

University of Jordan	Amman, Jordan
B.E. in Computer Engineering	Sep 2019 – Jun 2024

- Grade: Very Good

## CERTIFICATIONS

---

• Mastering Laravel Framework and PHP	NOV 2024
• Database Structures and Management with MySQL, Meta.	NOV 2024
• Effective Problem-Solving and Decision-Making, University of California.	OCT 2024
• Programming with JavaScript, Meta.	OCT 2024
• HTML and CSS in depth, Meta.	OCT 2024

## LANGUAGES

---

- Arabic: Native.
- English: Professional working proficiency.
