## EDUCATION

---

### Orange Coding Academy Bootcamp

Amman, Jordan

FULL STACK WEB DEVELOPMENT

Sep 2024-present

### The University of Jordan

Amman, Jordan

B.S. IN COMPUTER ENGINEERING

June 2024

- Graduation Project: Smart Dwell, creating an intelligent home environment with IoT technologies.
- Overall GPA: 2.77

## INDUSTRY EXPERIENCE

---

### Orange Coding Academy

Amman, Jordan

FULL STACK Web Development Bootcamp, INTERN

Sep 2024 - present

- Gained foundational skills in web development with HTML, CSS, JavaScript, PHP, and SQL.
- Built and styled front-end components for user-friendly interfaces.
- Created and managed databases with SQL for efficient data storage and retrieval.
- Collaborated in team projects to integrate front-end and back-end elements, simulating real-world workflows.
- Developed back-end functionality using Laravel for server-side operations.

### Orange Jordan

Amman, Jordan

DATABASE DEVELOPER, INTERN

Feb 2024 - Apr 2024

- Designed and implemented database architectures to support software applications.
- Developed and optimized SQL queries for data retrieval and reporting.
- Ensured database security, integrity, and performance through regular maintenance.
- Collaborated with developers and stakeholders to integrate databases with applications.

## PORTFOLIO PROJECTS

---

### Moments Giftshop [[GitHub](#)]

2024

- Developed an e-commerce platform for a gift shop specializing in flowers, plants, chocolates, and packages, focusing on a user-friendly design and efficient functionality.
- **Technologies Used:** HTML, CSS, and Bootstrap for the interface; PHP for order processing; and SQL for managing product and user.

### Job Heaven [[GitHub](#)]

2024

- A web platform for job seekers and employers, utilizing HTML, CSS, JavaScript, and Node.js.
- Collaborated with team members to overcome challenges and deliver a user-friendly experience.

### Portfolio [[GitHub](#)]

2024

- Designed a personal portfolio showcasing skills and projects with a responsive design for both mobile and desktop.

## Smart Dwell

2024

- Developed an IoT smart home system with environmental sensors and a Node-RED interface.
- Implemented a camera-based security system with a mobile app for real-time control.

## Sign Language System

2022

- Developed a sign language gesture recognition system with TensorFlow and Keras.
- Implemented various regressors to predict gesture meanings from image data.

## Traffic system detection & street lighting control

2022

- Developed a traffic and street lighting control system with PIC microcontrollers and C.
- Automated controls based on real-time traffic sensor data.

## SKILLS

---

### Technical Skills:

- Front-end development: HTML5, CSS3, JavaScript, Bootstrap, React JS.
- Back-End Development: PHP, Laravel.
- Database Management: MySQL.
- Version Control: GitHub.
- Operating System: Windows.
- Software Development Practices (SDLC): Agile, Scrum.
- Tools: Visual Studio Code, Figma, Trello, GitHub.

### Soft Skills:

- Time Management, Team Collaboration, Communication Skills, Technical Searching, Adaptability, Continuous Learning
