### Trainee

Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

As a Full Stack Web Developer, you will undergo an intensive and comprehensive program that covers various tech stacks, including MERN (MongoDB, Express.js, React.js, Node.js) and PERN (PostgreSQL, Express.js, React.js, Node.js), alongside essential front-end technologies such as HTML, CSS, and JavaScript, and CSS framework like bootstrap and tailwind.

## Projects

---

GOAT Field

As a Scrum Master within a group project, our team utilized the PERN stack (PostgreSQL, Express.js, React.js, Node.js) to create a reservation web application for football fields, ensuring its full responsiveness. You can check it [here](#).

Career Climb Quiz

A group project for a fully responsive HTML, CSS, JAVASCRIPT quiz website that will evaluate candidates' knowledge and skills for a specific position. You can check it [here](#).

Perfume Garden

In a solo project, I developed an e-commerce platform using the MERN stack (MongoDB, Express.js, React.js, Node.js). The project centers around the online sale of perfume oils and its complete responsiveness. You can check it [here](#).
