

# Mahmoud Suleiman

Full Stack Web Developer

Zarqa, Jordan • +962 796897579 • [mahmoudsuleiman678@gmail.com](mailto:mahmoudsuleiman678@gmail.com) • [LinkedIn Profile](#) • [GitHub](#)

## CAREER OBJECTIVE

Ambitious software developer specializing in the **MERN stack**, eager to contribute to innovative projects within technology industry. I am a **Computer Science student at Al-Hashemite University**, with hands-on experience gained through my **training at Orange Coding Academy**, where I worked on several projects. My core skills include **software development, data mining, and knowledge management**, with practical expertise in **JavaScript, Node.js, React.js, C++, and Java**, demonstrated through both academic and training projects. I excel in **problem-solving and analytical thinking**, with a strong understanding of standardization policies and procedures. Additionally, my **interpersonal and communication skills** have been refined through effective teamwork and leadership roles in various projects. I am seeking a **challenging full-stack development role** where I can leverage my technical expertise, problem-solving abilities, and teamwork skills.

## Technical Skills

**Front-End Technologies:** HTML, CSS (Tailwind, Bootstrap), Java Script ,Type Script, React JS, Next JS, Redux ,Figma.

**Back-End Technologies:** Node JS, Express JS.

**Programming languages:**C++ ,Java ,PHP.

**Database:** MySQL, Mongo DB, PostgreSQL, Firebase, Sequelize .

**Operating Systems:** Windows, Linux.

**Software Development Practices(SDLC):** Scrum, Agile.

**Tools:** MS Office (Word, Excel, PowerPoint), Git , Github ,Trello, Postman WebSocket , xamp.

**CMS:** Odoo.

## Soft Skills

Software Development Process Evaluation Performance Review Data Analytics Skills Requirement Analysis	Critical Thinking Problem-Solving Ability Project Management Creativity and Innovation Customer-Centric Approach	Time Management Problem-Solving Ability Effective Communication Attention to Detail Team Collaboration

## Experience

**Coding Academy by Orange** Dec 2024 - Present

**Full Stack Web Development Trainee** Work

Experiences:

- Developing Full-stack applications using the MERN stack (MongoDB, Express.js, React, Node.js) alongside HTML, CSS, and JavaScript to build dynamic and scalable web solutions.
- Building responsive and visually appealing Front-end interfaces with React, Redux, Tailwind, and Bootstrap, ensuring a seamless user experience.
- Designing and consuming RESTful APIs with Node.js, Express.js, and Sequelize, optimizing Backend performance and database interactions.
- Working with multiple Databases, including MongoDB, PostgreSQL, and Firebase, to efficiently manage and store application data.
- Delivered 10 full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.

**Fekra Company**

May 2025 – Present

**Full-Stack Web Development Trainee (Next.js + Laravel Ecosystem)**

Experiences:

- Building a production-grade **Next.js** front-end written in **TypeScript**, connected to a Laravel REST API.
- Implementing complex, type-safe forms with **React Hook Form** and **Zod** for schema-based validation and live error handling.

- Creating interactive admin tables using **TanStack Table v8** (server-side pagination, sorting, and filtering).
  - Writing clean, reusable hooks and components that keep the codebase strongly-typed end-to-end (API responses → UI).
  - Pair-programming with the Laravel back-end team to refine endpoints and guarantee contract-first development.
- 

## Projects

### 1) Hospital Management System [[github](#)]

**Description:** A web application built with **Next.js** and **React** to manage patient appointments and dental records. The system allows doctors to view their patients bookings and medical histories through an interactive interface. It also integrates **Socialat** for chat and video communication, enhancing interaction between doctors and patients..

### 2) Global Crime News Platform [[github](#)]

**Description:** A dynamic platform focused on global crime coverage, real-time updates, and raising awareness through reliable and accurate information. The platform features crime news updates, exclusive content for subscribers, secure journalist submissions, and an admin control system for content moderation. The project also includes an advanced analytics dashboard for managing statistics and site content.

Built using MongoDB for a scalable and flexible backend.

### 3) Jood – Revolutionizing Charity with Technology [[github](#)]

**Description:** An innovative platform that seamlessly connects donors with those in need, ensuring secure and transparent donations while empowering individuals and organizations to create real social impact. Built using **Node.js**, **Express**, **PostgreSQL**, and **Sequelize** for a robust and scalable backend.

#### 4) Sport Booking Platform [\[github\]](#)

**Description:** Sport is an innovative online platform that simplifies the process of booking sports fields. Whether you're a player looking for a quick match or a field owner managing reservations, our platform provides a seamless experience. Users can browse available fields, book in realtime, and manage their reservations effortlessly. Built using: **React.js** and **Redux** for a fast, dynamic, and state-managed user experience!

#### 5) ManageMate – Smart Task Management [\[github\]](#)

**Description:** A well-designed online platform that enables individuals and teams to efficiently organize, track, and manage their tasks, providing a fast and seamless user experience with **React.js**.

---

## Education

**Al-Hashemite University, Jordan 2025**

**Bachelor's in Computer Science (Very good)**

Conferences and Training Attended:

- Participated in the **Epicode** problem-solving competition, where I provided creative solutions to coding challenges and gained experience in analytical thinking and problem-solving.[[link](#)]

---

## Volunteer Experience

I have actively participated in various volunteer initiatives, including being a dedicated member of the **Al-Etihad Team** at **Hashemite University**. Through this role, I contributed to multiple community-driven projects, such as providing educational resources to students, organizing workshops, and coordinating volunteer-driven events to support academic and professional development. These experiences have strengthened my teamwork, leadership, and organizational skills while reinforcing my passion for community service and knowledge-sharing.

## Courses and Certificates

- **Full Stack Development** (I have been certified as a Stack Soft Academy Certified Trainee in partnership with Contemporary Cryptography Solutions, after successfully completing 90 hours of premium training.) ([Link](#))
