### About

I am an experienced full-stack developer dedicated to creating scalable and user-friendly web applications. I excel at collaborating with cross-functional teams to deliver innovative software solutions. With my meticulous attention to detail and a strong focus on writing efficient and scalable code, I approach web development with a strategic mind set.

### Education

- Bachelor's degree in the Civil Engineering department – The Hashemite University – (Jul/2017) - (Jun/2022)
- Coding Academy by Orange 6 Months Full-stack Boot camp – (Feb/2023) – (Aug/2023)

### Experience

#### Trainee at Orange Coding Academy – (Feb/2023 – Aug/2023)

Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

### Projects

#### - Bakery-Solutions-System (PERN-STACK) ([GitHub-link](#)) (Creator)

The Bakery Solutions system, built using the PERN stack (PostgreSQL, Express.js, React.js, and Node.js), offers clients a convenient platform to access their raw materials requirements.

#### - You-Belong (MERN Stack) ([GitHub-link](#)) (Team member)

This project aims to create a user-friendly web application that will streamline the operations of a charity organization and enhance the ability to serve those in need. The application will cater to three distinct types of users, each with its specific roles and functionalities.

#### - Quick-Ride (PERN-STACK) ([GitHub-link](#)) (Team leader)

The online booking system, built with the PERN stack, offers a user-friendly platform for car rentals in Jordan. As the team leader, I oversaw implementation, coordinated efforts, and ensured timely progress. The system provides a seamless user experience, streamlining bookings and enhancing operational efficiency for car companies.

### Skills

- HTML , CSS , Java Script ,BootStrap , Tailwind , wordpress ,Figma

- MERN (MongoDB, Express.js, React(Hooks & Redux), Node.js)

- PERN (PostgreSQL, Express.js, React(Hooks & Redux), Node.js)
