Full Stack Web Developer

## CAREER OBJECTIVE

I am a Full Stack web developer with hands-on experience developing dynamic and responsive web applications. I am proficient in front-end and back-end technologies, including HTML, CSS, Bootstrap, SASS, JavaScript, TypeScript, SQL, ASP.NET Core MVC, Angular, and ASP.NET Core API. I strive to write clear, maintainable code that delivers real value.

I hold a Bachelor's degree in Computer Science from Al-Balqa' Applied University and recently completed an intensive full-stack software development program at the Orange Coding Academy, where I honed my technical skills and worked on practical projects.

Over the course of my career, I have completed 10 diverse projects and held leadership positions such as Scrum Master and Product Lead, applying Agile methodologies to achieve successful results. With my strong analytical thinking, creativity, and continuous learning mindset, I am currently seeking a unique opportunity that will enable me to contribute to effective solutions, grow professionally, and add value to an ambitious development team.

## Technical Skills

**Front-End:** HTML, CSS, Bootstrap, SASS, JavaScript, TypeScript, Angular.

**Back-End:** C# (OOP), ASP.NET Web Forms, ASP.NET Core MVC, ASP.NET Core API.

**Database:** Oracle, MySQL, SQL Server.

**Software Development Practices (SDLC):** Scrum, Agile.

**Tools & Platforms:** Visual Studio, Visual Studio Code, Figma, Trello, Git (Version Control), GitHub.

## Soft Skills

Problem-Solving Effective Communication Continuous Learning Teamwork Time Management	Critical Thinking Active Listening Project Management Attention to Detail Flexibility	Self-Motivation Cultural Awareness Adaptability to Feedback Presentation Skills Initiative

## Experience

### Full Stack Web Development intern | Pioneers Tech

#### Work Experiences:

April 2025 – May 2025

- Developed desktop applications using Visual Basic, including a school management system with modules for student records, attendance, and grading.
- Designed, implemented, and optimized SQL databases to support system functionalities such as data entry, reporting, and secure data retrieval.

- **Front-end Development:** Created responsive and interactive user interfaces using HTML, CSS, JavaScript, and TypeScript, enhancing user experience through clean UI/UX design principles.
- **Back-end Development:** Developed and maintained web applications using C# and .NET MVC, ensuring efficient data management and scalability by consuming APIs and integrating back-end services.
- **Database Management:** Managed and optimized SQL Server databases, creating and executing complex queries for efficient data retrieval while ensuring high performance.
- **Project Work:** Successfully delivered 10 full-stack web projects, applying skills to real-world scenarios and developing scalable, maintainable, and high-performing applications.
- **Collaboration:** Worked closely with cross-functional teams to implement project requirements, ensuring seamless integration of front-end and back-end systems.

**FullStack Web Development Trainee | Tahaluf AlEmarat Technical Solutions**

**Oct 2024- Dec 2024**

**Work Experiences:**

- **Database Management:** Experienced in managing Oracle databases, including design, implementation, and performance optimization. Strong skills in SQL and PL/SQL for writing queries and stored procedures.
- **Programming Skills:** Proficient in C# and Object-Oriented Programming (OOP) principles, along with HTML and CSS for front-end development.

## **Projects**

**1) HR Management System ([Github Link](#))**

Description: A web application developed using ASP.NET MVC, C#, and SQL Server to optimize HR processes. It manages employee data, task assignments, and attendance tracking, featuring role-based dashboards and performance evaluation tools to enhance organizational efficiency.

**2) Library Management System ([Github Link](#))**

Description: The Library Management System is a web application built with HTML, CSS, Bootstrap, JavaScript, and C# ASP.NET Web Forms. It allows students to create accounts, search for books, reserve meeting rooms, and submit feedback. For library owners, it provides management tools for books and reservations, including password reset and report exporting features.

**3) Quiz Website ([Github Link](#))**

Description: The Quiz Website is an interactive web application built with HTML, CSS, and JavaScript. It allows users to take quizzes, select answers, and receive immediate feedback on their scores, providing an engaging way to test knowledge on various topics.

**4) E-Commerce ([Github Link](#))**

Description: Built a responsive e-commerce web app for cosmetics using Angular, TypeScript, HTML, CSS, and Bootstrap. Features include authentication, product categories, cart, vouchers, order processing, and personalized user profiles. Integrated reviews and ratings to enhance trust and user engagement.

## **Education**

**Full Stack Web Development Bootcamp – Orange Coding Academy**

**DEC 2024 – April 2025**

- Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

**Balqa Applied University**

**Jan 2021 – Jul 2024**

- Bachelor's Degree in Computer Science
- Grade: 3.10 out of 4
