### PROFILE

As a junior data scientist/analyst, I possess a strong foundation in statistical analysis and programming languages such as Python. I have experience in data cleaning, data visualization, and exploratory data analysis, and am familiar in SQL and Excel. Additionally, I am familiar with machine learning techniques and am eager to learn and apply new techniques to solve complex problems.

### SKILLS

- Python
- SQL
- Microsoft Excel
- Microsoft Power BI
- IBM Cognos
- Microsoft PowerPoint
- Analytical Skills
- Problem-Solving
- Communication skills
- Team Work

### EXPERIENCE

#### DATA SCIENCE TRAINEE

Orange Coding Academy

Jan 2023 - Mar 2023

- Python Programming: Introduction to programming concepts, data types, and control structures in Python, including variables, loops, and functions
- Data Analysis: Techniques for cleaning, transforming, and analyzing data using Python libraries such as Pandas and NumPy.
- Statistics: Introduction to statistical concepts such as probability distributions, hypothesis testing, and regression analysis.
- Data Visualization: Creating effective visualizations of data using libraries such as Matplotlib and Seaborn.
- Introduction to machine learning concepts such as supervised and unsupervised learning, classification, regression, clustering, and deep learning.
- Introduction to Big Data, NLP and Deep Learning.

### EDUCATION

#### BACHELOR OF ENGINEERING

Jordan University of Science and

Technology

2015 - 2020

#### SITE ENGINEER

Mohammad Manasrah Contracting Group

Jan 2022 - Feb 2023

- Ensuring that construction work is carried out in accordance with approved plans, specifications, and quality standards.
- Preparing and reviewing construction plans.
- Ensuring compliance with regulations and standards.
- Managing project timelines and budgets
